

BOND VOTE TUES. SEPTEMBER 28

Henry G. Lehman Announces for Representative

I am a candidate for the position of Representative of the 65th Floterial District composing Milam, Burleson and Lee Counties, for which a Special Election will be held Sept. 22nd, 1937.

This position was made vacant due to the resignation of Mr. Jesse James of Cameron.

To the people of these three Counties whom I have had the pleasure of meeting in the past I heartily solicit your vote and support.

If elected your Representative I shall strive and devote my time to the best of my efforts, to discharge the duties of this office. I shall devote special attention to all matters concerning my district, and toward promoting the general welfare of the people.

HENRY G. LEHMAN,
Lee County.

WILLIAM WINSTON DIES FROM ATTACK

Bill Winston, 57, of the Hoyte community died suddenly Friday afternoon while at work on his farm. Funeral services were conducted Sunday and interment was made in the Winston cemetery, near Minerva.

Mr. Winston has resided in Milam County for a number of years. He is survived by eight children, six daughters and two sons.

SCHOOL TO OPEN IN CITY SEPTEMBER 13

The Cameron Public Schools will open Monday, September 13. The Band will give an open air concert from eight-forty until nine. The pupils of the Ada Henderson School will then go their respective home rooms while the pupils of the Yoe High School will assemble in the high school auditorium.

There will be a few slight changes in the routine of the schools this year the hour for the opening of school will be eight-forty-five in both the Ada Henderson and Yoe High School. However the pupils in each school must be in their home rooms by eight-thirty-five. There will be a ten minute home room period to be used as the teacher and principal think best.

The noon period will begin at eleven-forty-five and work will resume at twelve-forty-five. School will be out at three-forty-five at the high school. The periods of the high school will be one hour this year (Turn to page 12)

Mrs. Dan G. Davis at 88 Goes to Dentist; Knew Sam Houston

Going to the dentist at 88 years of age is a thing few may know. Mrs. Dan G. Davis of Sharp was adding this experience to her long and interesting life this week and on Tuesday it was good to talk with her a few moments as she sat in the auto with her son, Dan Davis, Jr.

Most of Mrs. Davis' teeth are intact. Dr. E. R. Zellner said she is the oldest patient he has treated in his experience. Mrs. Davis is having her teeth removed.

Mrs. Davis was born in 1849 in the state of Georgia. In about 1851 the family moved to Texas, going to Independence which was then the seat of Baptist learning in Texas. Mrs. Davis is a Baptist and attended school at Baylor at Old Independence.

Several years later the family moved to Sharp. She was Miss Julia Hill Graves, a sister of the late Thomas Graves at Sharp. Her father, Dr. John Graves, was one of

the pioneer physicians in Texas. All of the Graves men were doctors on the side of her father. They were her uncles.

Mrs. Davis is the only one now living. She married Dan G. Davis in 1871 at Sharp. He was a stockman and pioneer who lived in that stirring Texas period. She has lived at Sharp for more than three quarters of a century.

Henry Lee Graves, first President of Baylor University was her uncle. He came to Texas along in 1845 to take the presidency of the college. Baylor is Texas' oldest university.

In Independence the family lived next door to General Sam Houston and family. Many of the happy recollections of the Independence days center about the lives of good neighbors. "General Houston was a fine man and they were good neighbors. I remember how he used to sit on his

(Turn to page 7)

Shirley Temple at Cameron Sunday

Shirley Temple, idol of Cameron theatre fans, tops the bill Sunday at the Cameron in Rudyard Kipling's "We Willie Winkie" a spectacular production of India.

The film has a war back ground and casts Shirley Temple in a new role. Sharing this picture is Victor McLaglen. Back of the role played by McLaglen is the Bengal Lancers, world famed military organization.

The story goes that Shirley becomes her own director in this picture and its making grew out of a request from Shirley who found the Kipling story in her library.

The month of September is an ex-

ceptional month for the Swift Theatre, Inc.

Thursday and Friday Joe Penner takes the stage in "New Faces of 1937." There follows on Saturday "Wild Money" and Talent Scout for the preview.

Tuesday and Wednesday of next week Warren William brings his unforgettable role in "Midnight Madonna" and then follows "Between Two Women" with Franchot Tone and Virginia Bruce.

One of the great films of the month is Edw. G. Robinson in "Galahad," Sunday and Monday, September 19 and 20.

J. F. Krupa Gets In Race for District Representative

J. F. Krupa of Lee County was in Cameron Tuesday meeting the voters. He is a candidate for the office of Representative from the 65th Floterial District composed of Milam, Lee and Burleson counties.

Mr. Krupa at one time lived in Cameron and was with the Roddy Brothers store. He will make a more extended announcement in the next issue of The Herald.

Bradbury Quits Business In City

C. W. Bradbury announced Tuesday that he is quitting business in Cameron. The stocks of the store are now under special sale to dispose.

Mr. Bradbury came to Cameron about 16 years ago with Louis S. Pierce of Navasota, later buying the Cameron store. The business has spanned an interesting period in the city's mercantile history and its passing removes one of the landmarks of the past decade.

Mr. Bradbury has not announced plans for the future.

GRAND JURY MEETS IN CITY MONDAY

The Milam County Grand Jury now in session is composed of the following: F. B. Durnie, Curry; H. B. McClellan, Cameron; Valter White, Maysfield; B. T. Godfrey, Gause; W. E. White, Rockdale; S. R. Baldridge, Bethlehem; Marvin Charles, Tracy; Geo. C. LaFerre, Sharp; Paul Fuchs, Buckholts; A. R. Walschak, Buckholts; John W. Rossom, Jr., Cameron; Roy, Griffith, Cameron.

Door bailiff is Bob Wiley and riding bailiffs are the constables in the county, B. F. Bailey, S. S. Hickman, Joe Lankford, W. C. Colvin, George Gamble, Keith Blankenship, Carl Marburger, A. E. Miertschin.

Poultry Judging Team Candidates Will Assemble

The Cameron Future Farmer poultry judging team will hold the first workout of the year this week when candidates for the team assemble Wednesday for a two day training period under the direction of E. D. Parnell, Vocational Agriculture teacher, who is coach of the team. A team has not yet been chosen but Dana Monroe, James Brock, Lyle McDermott and John Howard Pressley have made the highest averages in previous judging work.

The boys will make trips to Waco and to College Station Wednesday and Thursday to do practice work. They will judge Barred Plymouth Rocks, White Leghorns and Rhode Island Reds.

A Cameron team won the statewide contest in the 1935-36 school session, but the school was not represented by a poultry team last year in any contest. This years team will compete in district, area and state contests.

GILES S. SUMMERLIN

SUMMERLIN RUNS FOR REPRESENTATIVE

For Floterial Representative, Milam Lee and Burleson Counties, to Fulfill the Unexpired Term of Jesse James.

TO THE PUBLIC:

In presenting to you my candidacy for your Floterial Representative I do so with a knowledge of the responsibilities of this office by

I have been a resident of this District for forty-six years and have been active in business of different kinds for thirty years or more. With this experience I feel like I can meet the responsibilities of this office by knowing which laws are beneficial and which laws are harmful to this District.

Lower taxes and efficiency in Government has been a Slogan which you have heard a great deal about but very little done. If elected I pledge you that it shall not only be my

(Turn to page 7)

CASES ARE SET FOR TRIAL IN COURT HERE

The following civil cases have been set for trial in district court before Judge Graham Gillis:

September 13—City of Cameron vs. Community Gas Co.

September 20—City of Cameron vs. A. N. Green et al.

September 25—Crowell vs. Crowell.

October 4—Wall vs. I. & G. N. R'y Company.

October 6—Riley vs. Border State Grocery Co.

October 18—Darden vs. I. & G. N. R'y Company.

October 18—Idle Bird vs. Border State Grocery.

October 25—McLane vs. Texas Liability Insurance Association.

October 28—Oliva vs. Woodmen of the World.

District Attorney Building New Home

Criminal District Attorney Emory B. Camp has let contract for a new home in country club grounds.

Construction work was begun this week. The home is to be a modern frame structure and located south of the Chas. McDermott home. J. E. Johnston is the architect and Contractor Hughes will direct the construction. Materials are being furnished by the Carey Lumber Co.

Woodmen Circle Meets Tuesday

The Woodmen Circle in Cameron met in regular session on Tuesday night in the Knights of Pythias Hall. Routine business was transacted and a good attendance reported.

Miss Imogene McLerran, publicity director for the Circle was second in the district for her work. A prize is to be given the most successful director.

STANTON DOSSETT HERE

Stanton Dossett, former resident here and now in Shreveport, La., is in the city and will return to his home Thursday. His son, Stanton, Jr., is with him.

\$150,000 ASKED TO BUILD WATER PLANT

Tuesday, September 28th is the date set for the bond election in Cameron. The call was issued this week by the government, now advocating construction of a water utilities system in the city.

Revenue bearing bonds in the sum of \$150,000 are asked of the property owners. These bonds bear interest at 5 per cent and are to be paid from the earnings of the plant. Provision is made that at no time may the holders of the bonds collect taxes for their payment.

The issue is similar to the sewer bonds recently enacted and tendered the government. They expressly forbid tax levies for payment.

So far no statement has come from the council to indicate what the city has in mind. Whether the plan is to buy the properties of the Community Public Service Company or construct a new plant has not been announced. This was regarded as important information for the tax payers.

In this issue of The Herald the election order is printed in detail, setting out all conditions of the proposal, with the exception no statement is made regarding the present utilities.

The council is unanimous in its vote for the submission of the question and all are for the issuance of the bonds. One central polling place has been designated for the election.

MRS. L. M. MAJORS, 73 DIES NEAR CAMERON

Funeral services for Mrs. L. M. Majors, 73 of Walkers Creek were conducted from the Methodist church at Ben Arnold, Tuesday afternoon at 3 o'clock. Rev. M. A. Gary of Austin, officiated. Interment was made in the Pebble Grove cemetery, near Maysfield.

Funeral bearers were: Jim Mann, Marshall Terry, Clarence Colburn, Jewel Reeves, Rush Thomas, Frank Sherrill, Oliver Lookey and Feaster Scarbrough.

Mrs. Majors had resided in Milam County in the Walkers Creek and Ben Arnold communities for 43 years.

For the past three years, Mrs. Majors had been in declining health. She died on Monday afternoon at her home in Walkers Creek. She was born and reared in Tate County, Mississippi, moving later to the state of Utah and then to Texas, settling in Milam County. She was a member of the Methodist church.

Surviving are six children—Willie Majors, Greenville; Jim Majors, Walkers Creek; Mrs. W. M. McCall, a Ward; Mrs. John Jinks, Walkers Creek; Mrs. Elmo Vaughn, Cameron; Mrs. Sam Clark, Yarrington.

Hoyte School Will Open September 13

September 13 under supervision of Mrs. Nancy Lee Vaughn, principal and Miss Lois Randolph, assistant.

This school is one of the few schools of Milam county to meet the requirements of the state standardization. Mrs. Vaughn and Miss Randolph have worked hard to meet these requirements and they challenge the state to offer them other opportunities of the "Better School Movement."

Engle Gets Degree From State U

Chas. W. Engel of Rosebud who is to teach at Maysfield was awarded his Master of Arts degree by the State University on August 29th.

Graduation exercise were held on the campus with 175 receiving degrees.

Mrs. J. B. White is visiting her parents Mr. and Mrs. J. E. Hunt near Killeen. From there she plans a visit in San Angelo with her sister, Mrs. Ross Ray, before returning to Cameron in late September.

EPISCOPAL CHURCH

Sunday, September 12th, Holy Communion and Sermon 10:30 a. m.

Marriage License Show Big Increase In County

Since the first of September, the following marriage licenses have been issued from the office of the Milam County clerk, Homer Nabours.

Fritz Henry Parker and Davie Mae Hart; John H. Shields, Sr., and Willie B. White; Frankie Dryac and Miss Ethel Mondrik; Clarence Dryer and Odell Carne; Fadie Muston and Ellie Mae Lynch; Beutera Jeja and Rafaela Rodriguez; Willie Larza and Jessie Mainard; Neumann Raney Petty and Jewell Beatrice Burns; Frank Everett and Johnnie B. Carver; Thad Bailey and Ruth Adams; J. A. Roznos and Janie Reynolds; Don A. Davis and Mildred Evelyn Stewart; Clifton Gates and Jewell Moore.

Knights Columbus Start Drive

The Knights of Columbus met on Thursday night, with the meeting being presided over by Grand Knight Johnnie C. Andres.

A membership drive was planned and the council was divided into two teams with Leo Hollas and Jerry Mikula, captains. The losers will have to entertain the entire membership.

Bata Sigma Phi Meets Tuesday Night

The local organization of the Bata Sigma Phi is getting ready for the rush season. Several preliminary meetings have been held recently, the latest being on Tuesday night at the home of Mrs. Graham Gillis.

A study of parliamentary law was made with Mrs. L. S. Brown being leader. To raise funds for the treasury, a rummage sale was planned for Saturday.

Grape sherbet was served to the following: Misses Mary Newton, Dorcas Batte, Dell Horstmann, Pauline Starnes, Abbie Reese Harvey, Mrs. Graham Gillis and Mrs. Fred Reno.

Demonstration On Disease Control Among Poultry

A demonstration on the control of common diseases and parasites of poultry and turkeys will be held at the R. J. Stevens farm near Salem on Friday, Sept. 10th, beginning at 8:30 a. m. The general public is invited. Anyone with disease or parasite trouble among their fowls are urged to come. E. D. Parnell, Cameron will be in charge of the meeting.

Milam Theatre Gets Air Cooling System

Stanley Swift announced Wednesday morning that the Milam Theatre will have a new washed air cooling system in operation for the opening of the Sunday and Monday program. This will greatly improve the comfort of the theatre and will enable patrons to enjoy relief from the heat as they now do in the Cameron.

Mr. Swift launches his Sunday and Monday program at the Milam with "College Holiday" and the Louis-Farr 15 round fight for the heavy-weight championship of the world.

The new cooling system will put the Milam in serious competition with the Cameron for comfort and appeal.

NEWS FROM MILANO

School will open here September 13, with five new teachers.

Carpenters have been busy for the past two weeks doing some new building and repairing on the school grounds.

Mr. and Mrs. Bob Covey were here last week moving their household goods to Weldon, where they will teach another year.

Mr. and Mrs. Milton Pierce left Tuesday for Houston where they will visit their children. They were accompanied to Houston by Mrs. Monroe Pierce who had been visiting here in the Pierce home and her parents Mr. and Mrs. H. Holdiness.

Mrs. Ida Howes has returned home with her daughter and son in law were in California and other places of interest sight seeing and visiting.

Bro. Wheeler of Dallas is conducting a revival meeting here with large crowds attending.

Mrs. Tom Williams and daughter, Mrs. Martha Preston of Rockdale were guests in the R. E. Thweatt home here Thursday. They stayed and attended the revival here that night.

Mr. and Mrs. W. O. Newton of Cameron, Mrs. Lonnie Butts of Thorn dale and Mrs. Milton Arrington of Thrall and the Misses Jeters of Cameron were visitors recently in the home of their sister, Mrs. Jim Baggett.

Miss Marcell Taylor left Thursday for Rockport where she will teach school another year.

Mrs. Elam of Waco was a guest here last week of her sister Mrs. Jim Baggett and to nurse her daughter.

Mrs. Guy Haynes

ter, Miss Marjorie, who was sick from poisoning.

Mrs. Maggie Cheynie and children of Navasota are visiting in the home of her parents, Mr. and Mrs. H. Holdiness.

One of the R. R. sections here have been cut out and the men are going to various places on the R. R. where they were assigned work.

The shower given for Mr. and Mrs. Johnie Haddox who were recently married was well attended here Saturday night. They received many nice and useful gifts.

We are glad to welcome Mr. and Mrs. Taylor into our town. Mr. Taylor will be one of Milano's high school teachers this year.

Mr. and Mrs. Horace White are guests of their daughter, Mrs. Alton Baggett of Dallas.

Miss Clara Shaffner left Monday for her home at Palestine after a visit here with her mother and two sisters Mrs. Pierce and Newman.

Mr. and Mrs. Chas Miller and daughter of Houston were Sunday guests of Mrs. Miller's mother, Mrs. Ida Howes.

Mrs. Margaret Burnett and daughter, Mary Jane, left Friday for their home at Gladewater. Miss Mary Jane will teach English there in the high school.

Mrs. Mary Peoples returned home from Longview where she had been

with a daughter, Mrs. Ora Timmons the past three months.

Mrs. Sallie Robinson returned home Tuesday from a pleasant visit spent in Bryan, Caldwell and Chriesman.

Miss Alice Brennan, Mrs. R. Brennan and son Nick spent Sunday in Taylor visiting in the Ed. Brennan home.

Mrs. Charlie Brañon and son Gene are visiting in Houston. They plan to be gone two weeks.

Mr. and Mrs. G. W. Hilliard were Temple visitors recently.

Mr. and Mrs. A. H. Short and children of Waco and Mrs. A. L. Morrison of Carnegie were week end guests in the Loyd Ferguson home.

J. T. Baggett of Houston spent the week end here with his parents Mr. and Mrs. Ed. Baggett.

Several from Milano attended the funeral of Mrs. Ashley at Liberty Sunday afternoon.

I will run the little school cafe here this year, will be ready to serve lunches and have all school supplies.

Mrs. Loyd Ferguson.

Mrs. Ashley Dies

There was a gloom of sadness spread over Milano Saturday evening when it was learned that Mrs. M. E. Ashley had passed away at the Cameron Hospital where she had been

for the past two weeks for medical treatment. Mrs. Ashley had many relatives and friends in and around Milano who were grieved at her death. She was a member of the Christian church and lived up to her church duties. She leaves a husband M. E. Ashley, three sons and two daughters, an aged mother, four brothers and three sisters, besides other relatives and friends. Funeral services were conducted by Rev. O. C. Acrey of Cameron, at 4 o'clock Sunday afternoon, and her body was laid to rest by the side of her children who had preceded her in death. Leland Green had charge of funeral arrangements. The floral offerings were many and beautiful. Several out of town relatives and friends attended her funeral.

WINTER LEGUME DEMONSTRATIONS

September 15th has been set as the final date for farmers to sign an agreement to conduct a Winter Legume Demonstration, using either Hairy Vetch or Australian Winter Peas. This is about as late as seed can be ordered to arrive in time for early planting of these crops.

An attempt is being made to secure a substantial reduction in the price of seed for these demonstrations. It is very probable that the Inoculating Culture can be obtained free.

The above agreements can be mailed out for the signature of farmers who desire to participate in these demonstrations, but who are unable to come to the office.

FARM CLUB NOTES

The 4H club girls of Milam County are looking forward to their work this year on "Making Bedrooms Pretty" and on "Growing Baby Chicks" since neither of these phases of work have been carried with girls in this county in many years.

In the bedroom improvement work, each girl will provide either a suitable bedspread (preferably a candlewick one) or a piece of light weight cover (preferably a wool blanket or comfort); one slat under each row of bedspring coils so that the springs will not sag and lose their shape; some piece of protective bedding—either a mattress pad or blanket and pillow protectors; at least one pair of three yard sheets—either by making new ones or by lengthening a pair of short ones already on hand; and will make the bed correctly at least 7 times.

The club members plan to do equally as much toward getting a good poultry flock started. Each girl will provide either a small home made brooder house for a setting hen; add one piece of poultry equipment—a feed hopper, oyster shell hopper, or a water rack; provide 50 baby chicks or 20 pullets by hatching or by purchasing from a commercial breeder

or a hatchery; and will prepare and serve egg dishes at least 6 times using the methods demonstrated to them.

Regular 4H club meetings will begin September 14th. At these first meetings the girls will start their work by making tufted pillow tops.

NOTICE OF ELECTION FOR WATERWORKS SYSTEM REVENUE BONDS:

THE STATE OF TEXAS,
CITY OF CAMERON,
COUNTY OF MILAM.

To all qualified voters of the City of Cameron, Texas, who own taxable property in said city and who have duly rendered the same for taxation:

TAKE NOTICE that an election will be held in the City of Cameron, Texas, on the 28th day of September, 1937, to determine whether or not the City Council of said City shall be authorized to issue the bonds of said City, in the following amount and for the following purpose, to-wit:

\$150,000.00 Revenue Bonds for the purpose of purchasing or constructing a Waterworks System in and for said City;

and which election was duly called and ordered by the order of the City Council of said City, passed on the 30th day of August, 1937, and which election order is made a part of this Notice, and is in words and figures as follows, to-wit:

ELECTION ORDER.

THE STATE OF TEXAS,
CITY OF CAMERON,
COUNTY OF MILAM.

ON THIS the 30th day of August, 1937, the City Council of the City of Cameron, Texas, convened in Special session, at the regular meeting place thereof in the City Hall, there being present and in attendance the following members:

CHAS. C. SMITH, Mayor.
S. H. McDERMOTT,
BOB TERRY,
E. O. SCHILLER,
ROY GRIFFITH,
A. M. HORSTMANN,

Aldermen.

It was moved by Alderman McDermott, and seconded by Alderman Horstmann, that there be submitted to the qualified voters of the City of Cameron, Texas, who are property taxpayers therein, and who have duly rendered their property for taxation, the proposition for the issuance of the Revenue Bonds of said City, in the following amount and for the following purpose, to-wit:

\$150,000.00 Revenue Bonds, for the purpose of purchasing or constructing a Waterworks System in and for said City.

The above motion carried by the following vote: Aldermen McDermott, Terry, Schiller, Griffith and Horstmann voting "AYE;" and none voting "NO."

And, thereupon, Alderman McDermott introduced an order calling an election, for the purpose of submitting the proposition to a vote of the qualified property taxpaying voters of said City, and moved the passage and adoption of such order. The motion was seconded by Alderman Horstmann.

The motion, carrying with it the passage and adoption of the election order, prevailed by the following vote: Aldermen McDermott, Terry, Schiller, Griffith and Horstmann voting "AYE;" and none voting "NO."

The election order is as follows:

WHEREAS, the City Council of the City of Cameron, Texas, deems it advisable to issue the revenue bonds of said City, for the purpose herein-after mentioned; therefore,

BE IT ORDERED BY THE CITY COUNCIL OF THE CITY OF CAMERON, TEXAS:

I.

That an election be held on the 28th day of September, 1937, which date is not less than fifteen (15) nor more than thirty (30) days from the date of the adoption of this order, at which election the following proposition shall be submitted to the qualified electors who own taxable property in said City, and who have duly rendered the same for taxation:

"SHALL the City Council of the City of Cameron, Texas, be authorized to issue the Revenue Bonds of said City, in the principal sum of ONE HUNDRED AND FIFTY THOUSAND DOLLARS (\$150,000.00), maturing serially over a period of years not to exceed twenty (20) years from the date thereof, bearing interest at the maximum rate of FIVE PER CENTUM (5%) per annum, for the purpose of purchasing or constructing a Waterworks System in and for said City, as authorized by the General Laws of the State of Texas, said bonds to be special obligations of the City of Cameron, payable as to both principal and interest solely from the revenues of the City's Waterworks System, and shall the City Council be authorized to encumber the City's Waterworks System, or the revenues thereof, or both, for the purpose of securing the payment of principal of and interest on said bonds, said encumbrance on said revenues to be an exclusive first lien on and pledge of said revenues, after the deduction of the reasonable expenses of operating and maintaining said Waterworks System, as said ex-

penses are defined by Statute?"

II.

In the event the said bonds are authorized to be issued by a majority of the qualified electors of said City, voting at said election, and the same are issued and sold, the holder or holders of such bonds shall never have the right to demand payment thereof out of any funds raised or to be raised by taxation; and each bond issued or executed, in pursuance of such election, shall contain this clause:

"The holder hereof shall never have the right to demand payment of this obligation out of any funds raised or to be raised by taxation."

III.

That said election shall be held at City Hall, in the City of Cameron, Texas, and the following named persons are hereby appointed presiding officers of said election:

Frank S. Lesovsky, Judge.
Geo. T. Moore, Assistant Judge.
Mrs. Jno. Ryan, Clerk.
Miss Jessie Lowenstein, Clerk.

IV.

That said election shall be held under the provisions of the Constitution and Laws of the State of Texas, and only qualified electors of the City of Cameron, who own taxable property in said City and who have duly rendered the same for taxation, shall be qualified to vote.

V.

That all voters who favor the aforesaid proposition shall have written or printed upon their ballots, the words:

"FOR THE ISSUANCE OF WATERWORKS SYSTEM REVENUE BONDS AND ENCUMBERING THE CITY'S WATERWORKS SYSTEM, OR THE REVENUES THEREOF, OR BOTH, FOR THE PAYMENT OF SAME."

And, those opposed, shall have written or printed upon their ballots, the words:

"AGAINST THE ISSUANCE OF WATERWORKS SYSTEM REVENUE BONDS AND ENCUMBERING THE CITY'S WATERWORKS SYSTEM, OR THE REVENUES THEREOF, OR BOTH, FOR THE PAYMENT OF SAME."

VI.

That notice of said election shall be given by posting and publication of a copy of this order, at the top of which shall appear the words, "NOTICE OF ELECTION FOR WATERWORKS SYSTEM REVENUE

BONDS." Said notice shall be posted in each of the election precincts herein designated, and at the City Hall, not less than fourteen (14) days prior to the date on which said election is to be held, and be published on the same day in each of two successive weeks in The Cameron Herald a newspaper of general circulation published in the City of Cameron, the first of said publications to be made not less than fourteen (14) days prior to the day set for said election.

PASSED, APPROVED AND ADOPTED, this 30th day of August, 1937.

CHAS. C. SMITH,
Mayor, City of Cameron, Texas.

ATTEST:

Dan TYSON,
City Secretary, City of Cameron, Texas.
(City Seal)

THIS NOTICE of election is issued and given by the undersigned pursuant to authority conferred by virtue of the above and foregoing order of the City Council of the City of Cameron, Texas, and under authority of law.

WITNESS MY HAND AND SEAL OF THE CITY OF CAMERON, TEXAS, this the 30th day of August, 1937.

STATE DEFICIT OVER 24 MILLION DOLLARS

Austin, Sept. 4—State Auditor Tom C. King estimated today general fund deficit would be \$24,488,932 for the fiscal year ending Aug. 31, 1939, if present tax levies remained unchanged.

In a report to Governor James V. Allred and the legislature, King placed the deficit for the year ended Aug. 31, at \$15,194,632 and estimated it would reach \$20,673,141 when the current fiscal period ends Aug. 31, 1938.

His figures showed the debt increased \$2,273,966 in the past 12 months and would jump \$9,294,291 in the current biennium.

King said the debt on last Aug. 31 consisted of \$10,421,000 book deficit

and \$4,773,632 encumbrances, including \$821,600 for west Texas hospital, \$600,000 for other buildings, undistributed rural aid of \$1,514,000 and other claims.

Receipts for the year just ended were \$24,827,734 compared with estimates of \$24,827,734 compared with estimates of \$25,630,975 for the present fiscal year and \$25,408,488 for the year ending Aug. 31, 1939.

In estimating future revenue the auditor basis his figures on experience of past years, the upward of general business conditions and possible future production of natural resources.

Miss Nancy Newton, who has been attending summer school at the University of Texas, Austin, is visiting her parents, Dr. and Mrs. W. R. Newton, Sr. Miss Nancy and her brother, Frank, are planning to enter the University in September.

Buckholts Junior High School Names New Teachers

E. L. Hinson, vocational agriculture teacher in the Buckholts school was a business visitor in the office of the county superintendent, Guy T. Newton on Wednesday morning and announced that the Buckholts school board met on Monday night and elected the following new teachers:

Mrs. L. R. Aikman, of Yarrellton, home economics; C. L. Abbott, of Mart, coach and 7th grade teacher; and Mrs. Coy Arledge, Cameron, fourth and fifth grades. The other teachers in the school are: Mr. Hinson; Mrs. W. P. Elliott and Mrs. Bertha Goodwin.

The Buckholts school, the only Junior high school affiliated in Milam county, will open on September 13, Mr. Hinson said. Buses transport students of the 10th and 11th grades of the Buckholts school to Cameron.

COMMISSIONER GRIFFITH HEADS ATHLETIC HALL OF FAME

One of the most outstanding men in the Athletic Hall of Fame today is Big Ten Athletic Commissioner John L. Griffith, commissioner since 1922. Griffith, who is president of the national Collegiate Athletic Association, has been active in the fight against professionalism in schools and in encouraging good sportsmanship. He founded and managed the now famous Drake Relays and began the publication of a

professional magazine for athletic coaches.

His life experience includes two years in the army, where he was placed in command of physical education and bayonet work for the whole army, and ten years at Drake University where he was made Dean of Men and subsequently acting president of the university. It was while

directing the Coaching School at the University of Illinois that Griffith began publication of the professional magazine the "Athletic Journal" which reaches 15,000 coaches each month.

Griffith, ever interested in building alert, active bodies, favors Breakfast of Great Americans, Quaker Oats.

TO THE PEOPLE OF THE 65TH REPRESENTATIVE DISTRICT OF TEXAS:

For six years it has been my privilege to serve you as flatorial representative in the Texas Legislature. It would be impossible for me to put into words my deep appreciation of the honor you have conferred upon me. I shall never forget it, and shall always do all that is in my power to show you that I am truly grateful.

An opportunity has come to me to enter the administrative service of the State as Chief Clerk in the Treasury Department. I have accepted this position, and have now entered upon my official duties. I hope this change will enable me to increase my usefulness to the people of my district and State. I want you all to feel free to call upon me for any help that I can render, and trust you will continue to help me with your advice and co-operation.

I know you will give my successor in the Legislature—whoever he may be—the same cooperation which inspired and sustained me while I was your Representative.

Sincerely your friend,

JESSE JAMES.

By BERENICE McLERRAN

Thad Bailey and Ruth Adams Are Married

Miss Ruth Adams of Brownwood and Thad Bailey of this city were united in marriage, Sunday at 12:30 o'clock in Brownwood at the home of the bride's mother, Mrs. O. E. Adams.

The Rev. Mr. Bradford, pastor of the Coggin Avenue Baptist church, Brownwood, officiated in the double ring ceremony, which was spoken before an improvised altar of palms, cut flowers and fern in the living room of the Adams home.

Gene Adams, son of Mr. and Mrs. Bill Adams of Brownwood, and a nephew of the bride, was the ring bearer and bore the rings on a small pink satin pillow. Young Adams wore a suit of white flannel trousers, a black and white checked coat and white shoes.

The bride was dressed in an apricot brown dress with accessories to match. Her corsage of rosebuds was on the left shoulder.

For something old, she wore a bracelet, which belonged to an aunt, Mrs. Blueford Adams of Brownwood. Mrs. O. E. Adams, mother of the bride, for the ceremony, wore a navy blue chiffon dress with matching accessories.

The bride was born and reared at Brownfield and graduated from the Brownfield high school. She attended business college in Brownwood, where she is now employed in the accounting department of the S. W. Bell Telephone Co.

The bride groom is the son of Mr. and Mrs. B. F. Bailey. He graduated from the Yoe high school. At present he is employed with the Ray Burke 5c to \$1 store. Mr. and Mrs. Bailey will make their home here with the bride groom's parents. Mr. Bailey is a popular young business man and has a host of friends here who will welcome his bride, who has proven a very charming young lady.

Following the wedding ceremony, a dinner was given at the Bill Adams home in honor of the bride and groom. Out of town guests present for the wedding were: Theo Adams of Washington, D. C., Mr. and Mrs. LeRoy Adams and daughter, Bobbie Joyce, of Abilene; and Mr. and Mrs. Jimmy King of Caldwell.

Earl Burke Home Scene of Birthday Bride Party

Eight tables of players assembled at the home of Mr. and Mrs. Earl Burke on Tuesday night, for games of bridge.

Mr. and Mrs. Herbert Cooley of Marlin were the out of town guests and Mrs. Cooley was presented a birthday gift. The birthday idea was carried out in the refreshment course in the individual cakes which were centered with tiny birthday candles. Apricot sherbet was served with the cakes.

During the games, when a slam was made by any of the guests, they were given the privilege of selecting a gift from a basket prepared by the hostess. Charles Allday, Gaston Bamore, Mrs. Franklin Dusek, Bush Stafford and Harold Payne made slams.

At the conclusion of the games, Mrs. Charles Nabours held high score and was presented table covers. Mr. and Mrs. L. C. Wood were holders of low score and also received a gift.

Tuesday Bridge At Allday Home

A color scheme of orange and black was carried out in a lovely manner in the bridge party given on Tuesday night by Mr. and Mrs. Charles Allday when they entertained twenty of their friends.

For success in games, prizes were presented to Mr. and Mrs. Penn Wolf for high, Miss Virginia Cone for low and Mrs. Earl Burke, traveling.

Ice cream and cake were served to the following: Mr. and Mrs. Harvie Yoe, Mr. and Mrs. E. C. Cole, Mr. and Mrs. Charles Davidson, Mr. and Mrs. Gaston Bamore, Mr. and Mrs. Earl Burke, Mr. and Mrs. Charles M. Hicks, Mr. and Mrs. Penn Wolf, Mr. and Mrs. Bob Bennett, Miss Virginia Cone and Mr. and Mrs. Charles Allday.

Mrs. Davis

(Continued from page 1)

front gallery and carve objects from wood with his pocket knife. He had lived a long time then and was old. We knew him as General Houston. Mrs. Houston was kind and a good woman and neighbor. They had a son named Sam and another named Temple. I played with them and we were children together there in Old Independence. It seems so long ago, now, but I remember it all.

"It seemed General Houston was silent most of the time, though he talked to me often. I used to sit in his lap and watch him whittle on a piece of pine. One day he whittled a small wooden cross and gave to me. I kept it for many years. It was lost somewhere about our home in Sharp many years later. Yes, General Houston was a good man and gentle and kind to us and we loved them as good neighbors."

It will be recalled that President Roosevelt on his recent visit to Texas shook hands with Sam Houston. Temple Houston was once a member of the Texas senate. He resembled his father known as the "Raven," and the greatest of American political figures.

Dr. John Graves and General Sam Houston were baptized together in the icy waters of Rocky Creek at Independence. It was in November. General Houston once sought membership in the Presbyterian church. He became a member of the Catholic church soon after he rode his horse across Red River an exile from his unhappy experiences in Tennessee and after a quarrel with Andrew Jackson. He became a Baptist at Independence and was baptized by Dr. Rufus C. Burleson.

Mrs. Davis enjoys excellent health. She has four sons living. They are Will Davis, Fred, and Dan Davis at Sharp and Judd Davis in Cameron. Two daughters also live and are Mrs. T. M. Pace of Grandview and Mrs. B. F. Davis of Dallas. Another son, John Davis, died in 1919. His son, John Hopkins Davis lives in Cameron with his uncle, Judd G. Davis.

Her late husband, Dan G. Davis, Sr., died in December of 1927.

Summerlin

Slogan but I shall labor to my utmost to carry it out.

I am in favor of the payment of the Old Age Pension to all whom are entitled to it, but I am strongly opposed to the large amount of money it takes to administer the payment of the Old Age Pensions. I believe that a more economical administration

of the payment of the Old Age Pension could be arranged with the different Counties and County Officials, which would eliminate this vast army of job holders and give this money to the needy Old Age.

I will try to see each voter in this District but the time is short and to you whom I do not get to see I take this method of asking you for your vote and influence on Wednesday, September 22nd. If you vote for the right kind of man you have little to fear of bad judgment or neglect of your interest which, if elected I will guard carefully.

If I am elected I pledge you that I will represent this District with the best of my ability and experience.

GILES S. SUMMERLIN.

THE STATE OF TEXAS

How CARDUI Helps Women

Cardui is a purely vegetable medicine, found by many women to ease functional pains of menstruation. It also helps to strengthen women, who have been weakened by poor nourishment, by increasing their appetite and improving their digestion. Many have reported lasting benefit from the wholesome nutritional assistance obtained by taking Cardui. If you need help like this, get Cardui at the nearest drug store, read the directions and try it.

By BERENICE McLERRAN

Miss Ethel Mondrik Becomes Bride of Franklin Drgac

The Marriage of Miss Ethel Mondrik to Franklin Drgac was solemnized at the Methodist church, Sunday at 5 p. m. Rev. J. Coy Williams, pastor of the church officiated in the ring ceremony.

Giant King asters, rainbow asters, fever few, fern and palms arranged in a lovely manner on the altar, formed a pretty setting for the wedding.

Geo. Newton, head usher escorted Miss Mildred Mills of Caldwell to the organ. Miss Mills first played Largo. Walter Burns accompanied Mrs. W. G. Harsha to the altar. Mrs. Harsha sang "I love You Truly."

Miss Mills wore a frock of peach satin. The neck was square and in front was centered with a corsage of pom-pom asters, was cut in the back. The sleeves were short and puffed.

Mrs. Harsha wore a dress of Ashes of Roses taffeta, with net Russian down the front and the neck line. At the conclusion of Mrs. Harsha's song, she and Mr. Burns took their positions at the altar.

As Lohengrin's wedding march was played, the ushers—George Newton, Edward Schiller, F. E. Jackson and Louis Kubecka of Buckholts, came in dual, followed by the bridesmaids Mrs. Alvin Mondrik, Misses Elizabeth Eanes, Doris Rrgac of Caldwell, Marie Brod, Beverly Mondrik, and maid of honor Miss Lillian Mondrik, all who came in singly.

The bridesmaids dresses were made of taffeta on colonial styles, with each wearing a taffeta halo and carrying colonial arm bouquets of Asters.

Miss Elizabeth Eanes wore pale green with yellow asters; Miss Marie Brod, pink, with lavender asters; Miss Doris Rrgac, orchid with pink asters; Mrs. Alvin Mondrik, Aqua with rose colored asters.

Beverly Mondrik Junior brides maid and daughter of Dr. and Mrs. Beverly Mondrik of Marshall, wore a dainty frock of blue taffeta, made

Martha Washington style. Her bouquet was of different shades of asters.

Miss Lillian Mondrik, maid of honor, and sister to the bride, wore a becoming frock of peach lace over taffeta. The skirt was full and gored in the back. The sleeves were short and puffed. A peach lace covered cord designed the sleeves and the front part of the waist and extended to the back. She carried blue asters.

The bride entered with her brother, Alvin Mondrik, who gave her in marriage. She wore a beautiful white satin dress, which had a high neck line with silk lace in front and short V in the back. The train of the skirt was circular with pleats around the edge. White satin covered buttons extended down the back and were also on the sleeves, which were fitted and puffed at the shoulders and which came in a point at the hands. Her veil was of silk tulle. A sprig of Lily of the Valley held the veil which was over the face, but full and longer in the back. Lily of the Valley, and white rosebuds, tied with silk tulle, was the bride's bouquet. For something old, the bride wore a lovelier, which belonged to her mother.

Best man, Edward Drescher of Caldwell, stood to the right of the bride and groom, while the maid of

honor and the Junior brides maid stood to the left of the bride and groom. Other attendants of the wedding party stood upon the altar facing the bride and groom.

"Traumerei" was played softly during the ceremony. A Lohengrin selection was played for the recession.

Mrs. Frank Mondrik, mother of the bride, wore a blue Alpaca dress with a touch of white. She also wore a large white felt hat. Her corsage was of pink asters.

Mrs. F. B. Drgac of Caldwell, mother of the bride groom wore a frock of blue, with a beige felt hat. Her corsage was of white asters.

Following the ceremony, a reception was held at the Frank Mondrik home. About seventy-five guests attended the reception, with a number of out of town guests from Rosebud,

Caldwell, Bryan and Temple.

Miss Lillian Mondrik cut the three tiered, white wedding cake, centered with a miniature bride and groom. Punch was served by Mrs. Frank Mondrik of Marshall. The dining table was spread with a lace cover and centered with a bowl of red roses.

Mr. and Mrs. Drgac left for a honeymoon in Dallas and Fort Worth. Upon their return to Cameron, they will reside with the bride's mother. Mrs. Drgac wore a traveling costume of black alpaca, Wallis Simpson style. To complete her costume, she wore a black taffeta turban, gabardine shoes and kid gloves.

The marriage of this couple is the culmination of a romance which began here several years ago, while the two were in high school. Mrs. Drgac was reared in this city, the daughter

of a prominent family. She attended Southwestern University, Georgetown; Teachers' College in San Marcos and Sam Houston college, Huntsville. She has been teaching in this county at Marak for six years and will teach there again this year.

Mr. Drgac was born and reared at Caldwell, the son of Mr. and Mrs. F. B. Rrgac. He graduated from the Caldwell high school, later being employed in the Mondrik Grocery store. At present Mr. Drgac is employed

with the Central Freight Lines in Cameron.

Mrs. Drgac was honored with a number of parties before her marriage.

Edward Geiser and Joe P. O'Sullivan of Burlington and Ernest Michalka have left for LaPorte, where they entered St. Mary's Seminary.

Rudolph Richter is able to be up after a recent illness.

A SUPPER

Will be held on St. Monica's church grounds here Sunday, September 12, beginning at 5 p. m., sponsored by St. Rita's Circle. Sandwiches, Cake, Pie and Ice Cream, will be served.

Games will be played. In case of rain, the supper will be held indoors. Public invited.

Many, Many Women Say Cardui Helped Them

By taking Cardui, thousands of women have found they can avoid much of the monthly suffering they used to endure. Cramping spells, nagging pains and jangled nerves can be relieved—either by Cardui or by a physician's treatment.

Besides easing certain pains, Cardui aids in building up the whole system by helping women to get more strength from their food.

Cardui, with directions for home use by women, may be bought at the drugstore. (Pronounced "Card-u-i.")

THOROBRED FABRICS

Your all-wool new garments can be Rightly Tailored, made in Custom like Style, Workmanship, Fit, Quality and price, guaranteed satisfactory.

Suits made to measure for men and women.

The most outstanding values in many years.

New Low Prices on three hundred new pure wool samples.

No extra charges for fancy sport backs or over-size, and no extra charges for parcel post.

The newest style Models are here for your selection, but you may, if you wish bring any fashions plate number of any Standard Tailoring Company, and we will have your garment made exactly as you want it made. And no extra charges whatsoever.

See the best collection of all-wool fabrics shown. The New Samples have just arrived, with every color, shade and pattern that is new.

We also sell any material in the line, any quantity of inches, or yards, at much less than you may expect to pay.

We made a contract with a big American Textile Company, who buy WOOLENS in large quantities to furnish us with any small quantity anyone may desire at extremely low price.

You will find the fine domestic and imported woolens in this large line.

If you will see, and examine these fine fabrics, and get the prices, you will say that the prices are WHOLESALE for there is a great difference in these New Low Prices. You can save from \$5 to \$12 on a SUIT.

We also made a contract with one of the oldest and most reliable Tailoring Service Firms in America. They specialize in making BIG CITY CLOTHES. They have a tremendous buying power, buying everything that goes into a suit, in big shipments from the mills and factories, therefore they are able to make you a beautiful, highly finished, perfect fitting suit for such astounding low price.

Remember every fabric is all-wool and every garment is made strictly to your own individual measure and form. Complete satisfaction is assured. You take no chances, the TAILORING SERVICE, of America has given entire satisfaction, to the best dressers in our big cities for thirty years.

Thorobred Fabrics and Right Tailoring Service, has never been offered in Cameron (that we know) before, but now anyone can see the great LINE, and the fine hand tailoring, for so little money.

It is not possible to believe it, without seeing hundreds of beautiful new fabrics. This grand assortment consists of blues, grays, greens, browns, plaids, stripes and every other conceivable color that the best dressers demand. That which is in the height of style, most popular for the coming Fall and Winter seasons.

School Starts Monday September 13.

They're Here

Thousands of items of school supplies ready for the opening days of school.

Included in these items are the best known lines of School Supplies. We will not attempt to name the things we have.

Make your list and bring it to this store. We will fill it and the story will be grand economy. You will save and you will get the best of equipment.

"Only The Best"

Ladies Coats and Suits

Made to individual measure in the newest MAN-NISH STYLES. Of course there is only one way to get the genuine mannish effect and that is to have your suit made by a mens Tailoring Firm. Tailoring Service, of Chicago, will give you that genuine hand made tailoring effect. Select any cloth in the big line, and the style you wish to have it made in

GOOD NEWS for Ladies who wear the very popular fine fabrics made in the "Big City" mannish tailored styles.

VERY SPECIAL

From September the 15th to October 15th, to introduce this Famous Great Line,

THOROBRED FABRICS

we will sell any length or yards to Ladies, for their own use only, at wholesale price.

This SERVICE is exclusive in Cameron and Milam County.

The prices of fine finished Garments are truly beautiful, the Style, Workmanship and Fit is perfect. The Great Textile Company, says: "Our Prices are

guaranteed to be the Lowest in America for First Quality Merchandise." There are no better, or lower prices anywhere to be found, but higher prices are easily found, at least \$5 to \$12 on a custom-style tailored three piece suits.

There are also many fine coating fabrics in the GREAT LINE.

Come in and see this WONDERFUL LINE. Give your eyes a treat. You may order single or double breasted coats, there is no extra charge for Fancy Backs, sport styles or for large size. You may order Ensemble Effect, or all in one pattern. All garments are to fit your own measure, and your own form.

See the famous "THOROBRED" fine all-wool Line. Exclusive in CAMERON, TEXAS. Remember this BIG LINE, stands on its own merits, and the FINE TAILORING SERVICE, offers you Guaranteed made to your own MEASURE and form Garments. That fit you satisfactorily. The prices you will recognize as being WHOLESALE when you compare them with same quality anywhere.

TAKE ADVANTAGE OF THIS INTRODUCTORY OFFER—Orders are also taken for special made-to-measure garments by—

NATIONAL TAILORING CO. & W. D. SMITH & CO.

If you want a "Run-around" Agents three piece suit, they are here too, at \$10.45 special ordered suit. We do not recommend that price suit, or any other higher price suit, made for that purpose. Such garments may look fairly well, when you first look at them but there's little satisfaction to them.—

MEAL and HULLS

HULLS \$8.00 per ton
 MEAL \$1.50 per sack

Cameron Cotton Oil Company.

FARM CLUB NOTES

"My children like pork and beans so I bought 35 cents worth of navy beans and put up 16 number 2 cans," Mrs. George Young, foods demonstrator of the Duncan Home Demonstration Aent. Pork for the beans was home produced, and the tomato sauce made from home grown tomatoes. This made the average cost per can a little more than two cents and Mrs. Young says it is a product of superior quality. She plans to put up another cooker full soon.

A clothes closet at no cost except

hinges and fastener for the door is the accomplishment of Mrs. J. K. Duncan Home Demonstration Club. All lumber was found around the place. It was rough so Mr. Dunham planed it smooth. Calsomine for the wood work was left from some previous improvement work and a friend gave Mrs. Dunham enough paper for the interior.

Mr. and Mrs. Bill Parma were recent visitors in Navasota.

"BANKERS' HOURS"

...Are Not What They Seem to Be

Many people think that a banker's day starts late and ends early—that a banker spends very little time in actual banking. These people have no conception of the tremendous amount of labor necessary to keep the bank's affairs in the absolutely balanced state that they must be. Millions of clerical operations keep the bank's business in perfect order, night and day—and they are mostly done after the doors have been closed for the day. And then think of the constant 24-hour guard the bank keeps on your money—as efficient as if a cordon of police surrounded it by night and day. No, bankers' hours are not easy hours. They are the long hours needed to build up an institution to which you can point with pride and say "MY bank!"

Temple Life Insurance Company

Owned, Controlled and Managed by Home People—Temple

"Claims Paid Promptly and in Full"

"Back in 1927 my monthly light bill was \$3.70. Here is my bill for this month and it is still about the same."

"Explain that to me"

Well, Mrs. Customer, let's compare what you bought with \$3.70 in one month of 1927 to what you are now buying in one month with \$3.73.

Your 1937 bill was for the use of 30 kilowatt hours of electric energy. Your present bill is for the use of 62 kilowatt hours of electric energy. More than two times as much electric energy for only 3 cents more money!

"Two times as much electricity? I don't see how it's possible!"

In 1927 you probably used an electric iron, a cleaner, a percolator and, of course, your lights.

"That's about right . . . but what's that got to do with my present bill?"

Just this: Let's compare the limited use of electricity represented in your 1927 bill to that indicated in your present bill. What appliances do you now use?

"Well . . . let me see . . . I have an electric refrigerator, radio, washing machine, two electric clocks, two fans, and a new iron and cleaner . . ."

Do you use more lights than you did in 1927?

"Oh, mercy, yes! We've got those indirect floor lamps, lights in the garage and back yard . . . more lights all over!"

I believe you will now agree with me that we've really cut

your rates. You can see that you're actually buying more than two times as much electricity for only 3 cents more money. And, when you consider that the value of the service represents a very real saving to you, I believe you'll get a different slant on your electric service bill of today!

"Oh, I'm not one to argue against plain facts. I simply did not understand . . . didn't realize I was using so much more electricity and getting so much service for my money. I appreciate your explanation."

A FOOL'S DREAM
(Editor's note: This article is published as a news item and represents views of Mr. Ferguson only.)

I did not say this last week or last year. I said it when Woodrow Wilson first proposed the League of Nations at the peace table some 17 years ago. The day before Jim Reed made his famous speech in the Senate against the League, I wrote a column in my paper, The Forum, denouncing the League of Nations as a fool's dream.

By the way, I am thinking of reviving the publication of the Forum. If my old readers would subscribe again, I would be tempted to renew my readers of former days. However I would not quit my new friends.

But back to the League of Nations. If I am permitted to say I told you so, I feel that my censure of the League idea was the most prophetic utterance I have ever made.

Woodrow Wilson was so popular at the close of the world war, it was a dangerous attitude for anybody to criticize either the President of the League of Nations. I called it the league of notions. I leave it now to history as to whether I was a good guesser or a prophet.

All the nations of the world except ours were swept off their feet and in to the league. It was a pretty theory but really a fool's dream. I would not refer again to that awful catastrophe but for the fact that there is yet a faction of our people that still entertain the idea that the league ought to be revived.

When we remember that awful war and what it would mean if our boys were called to the colors again under the blame fool idea of making the world safe for democracy, I shudder again and again.

I don't like the way Secretary Hull is handling himself. He appears to be engaging in too many penny rows with foreign countries. He seems to be under the spell of Woodrow Wilson. We ought to learn a valuable lesson by what has happened in recent years.

European nations who joined the League of Nations have repudiated their debts to us for money loaned them to feed and maintain their armies while they won the war with the help of our boys, thousands of whom paid the supreme sacrifice of their lives on the field of battle.

Notwithstanding the supposed solemn oath of allegiance to each other to stop wars and promote peace, they have miserably failed to stop a single battle or restored peace to a single nation. We should not trust the League of Nations or a single nation that belongs to the league any further than we could throw a bull by the tail.

The conquest of helpless Ethiopia, the slaughter of the Japs and Chinese without the slightest attempt of the League of Nations to stop it shows that the League of Nations is and was not only a fool's dream but that it was conceived in the sin of insincerity and by people who have no right or claim to civilization.

Let us prepare to meet these enemies of ours and enemies of each

other who are yet only a few notches above wild animals. Let us reconsecrate ourselves to the law of self defense and self preservation.

Texas Aggie Line Boasts More Than Three Tons of Weight

The famed "thin read line" of the Texas Aggies is not as thin as it sounds, judging from lengths and breadths of players mentioned in tentative squad rosters. The Aggies, in fact, will blot out a considerable portion of the greensward when they trot on the field.

Coach Homer Norton is expecting a "shipment of nearly five tons of football talent to arrive Sunday, Sept. 5 and to start practice Monday. The tonnage is divided among 53 candidates who average 181 pounds in weight and 5 feet 11 inches in height.

Line Heavy
More than three of the five tons are wrapped up in 34 line candidates who total 6,540 pounds. Reducing that license plate figure down to a one-man basis, the Aggies statistician found the average weight of each lineman is 193 pounds.

Stacked one on top of the other's head, the linemen would tower 204 feet, eight inches into the air, a

height equivalent to that of a twenty-story office building. Simple mathematics reduces such a stack down to an average height of six feet.

Young Weighs 212
Roy Young, of Port Arthur, All-Southwest Conference tackle, takes the ribbon for weight, scaling 212 pounds, and Joe Boyd, sophomore tackle from Dallas and Paul Wofford, squadman tackle from Arlington, tie at 6 feet three inches for the tall man honors of the Aggie squad. Boyd missed a double by weighing "only" 210, losing to Young by two pounds. Wofford scales 185.

End Candidates
Eleven end candidates, weighing an even ton, average 182 pounds and have an average height of 6 feet, one inch. Eight tackles scale 1,598 pounds for an average of 200 and stand 6 feet, two inches. The dozen guards tip the scales at 2,345 and average 5 feet, ten inches, and the three centers total 597 pounds for an average of 199 and a medium height of 6 feet, one inch.

Tallest Back
Backfield candidates, numbering 19 bring the tonnage of the squad up another 3,300 pounds for a total of 9,840. The average back weighs 174 pounds and is 5 feet, ten inches tall.

Frank Wood San Angelo, sophomore, towers 6 feet, one inch, to rank as the tallest back on the squad. The weight championship is a three-way

tie between Bruno Schroeder, Lockhart, 1935 letterman; chunky Bill Audish, Brenham; and Karl (Popeye) Steffens, Brady squadman, who all weigh 192 pounds. Schroeder stands an even 6 feet; Steffens is 5 feet, ten inches; and Audish but 5 feet, eight. The lightest and shortest prize goes to J. B. Saltonstall, sophomore, of El Dorado, Ark., who stands 5 feet, seven and weighs 155 pounds.

The joker in the statistician's pile of figures is that calculations were made on 1936 weights and heights and that many of the players now probably are longer and broader.

Nelson Green, connected with the Southern Oil Minerals Corporation, Corpus Christi, is now attending law school at the University of Texas, Austin. He was a visitor in Cameron recently.

Mrs. Frances Glossup is in the Breckenridge Hospital at Austin and is in a serious condition following an operation. She is the sister of Mrs. J. G. Hill and Mrs. Kathryn McCandless of this city. Mrs. Hill and Mrs. McCandless have visited Mrs. Glossup several times in the past few days.

August Kunz and family were recent visitors in Dallas at the Pan-American Exposition.

Mrs. Med Swain of Sweetwater and Mrs. Victor Hinds of Needles, California, are guests of their mother, Mrs. John Matula.

Modern Gas Automatic costs little each month!

There's nothing like a crippled, worn-out water heater for throwing an orderly household into a tailspin. Unable to handle peak demands for instant hot water it forces the strong-arm member of the family to play the role of hot water boy.

Why worry along with such inefficiency when a modern gas automatic costs so little each month to own and to operate?

A modern gas automatic has everything a family asks of a water heater. It is smartly styled. It provides hot water the instant it is needed. It is safe and simple in operation, requiring no attention. It saves money. So why be without this great home convenience when you can trade your old heater as part payment on one of these new gas automatics?

Mrs. Alvin Mondrik Hostess To Wedding Party

Mrs. Alvin Mondrik, a brides maid in the Mondrik-Drgac, wedding was hostess to members of the wedding party on Saturday night at a rehearsal supper.

The hostess used rainbow asters for floral decorations. The chosen flowers were also used as a centerpiece on the dining table which was over-laid with a lace cloth. A buffet supper consisting of ham, stuffed potatoes, salad, hot rolls, cake and iced tea, were served.

Members of the wedding party present were: Miss Ethel Mondrik, the bride; Franklin Drgac, the groom; Miss Lillian Mondrik, maid of honor; Beverly Mondrik of Marshall, Junior bridesmaid Mrs. Alvin Mondrik, Miss Elizabeth Eanes, Miss Marie Brod and Miss Doris Drgac of Caldwell, bridesmaids; Miss Mildred Mills of Caldwell, organist; Mrs. W. G. Harsha, soloist; Edward Drescher of Caldwell, best man; Walter Burns, Ernest Kahler, Jr, Louis Kubecka of Buckholts; George Newton, F. E. Jackson, Edward Schiller, ushers, and Alvin Mindrik, who gave his sister in marriage.

Other guests were: Mrs. J. Coy Williams, W. G. Harsha, Dr. and Mrs. Frank Mondrik of Marshall; Mrs. Walter Burns.

The bride presented members of the wedding party with linen handkerchiefs.

House Warming Party Is Given Thursday Night

A house warming party was given for Mr. and John Copley on Thursday night, with Mrs. T. C. Copus, Mrs. W. G. Harsha and Miss Annie Woolley, hostesses.

Mrs. Copley returned recently from a visit in the North and upon her re-

turn home found that her husband had completely refurnished their home on East 11th street. As a surprise to Mrs. Copley, twenty friends gathered at the Copley home on Thursday night, each bringing a useful gift for the home.

Games of forty-two were enjoyed. An iced drink with sandwiches and cake was served to the following: Mr. and Mrs. Larry Hackabeil, Mr. and Mrs. Bert Nicholson, Mrs. Ray and Mrs. Bertn011shrdlucmfwyppjp mond Beard, Roy C. Robinson, Ray Burke, Mrs. T. C. Copus, Mr. and Mrs. Calvin Markham, Mr. and Mrs. W. B. Denson, Rev. and Mrs. Maurice Grove, Miss Annie Woolley, Mrs. V. P. Woolley, Mr. and Mrs. Gus Evans, Mr. and Mrs. John Copley and Mrs. W. G. Harsha.

St. Rita's Circle Resumes Meetings

St. Rita's Circle of St. Monica's church met Wednesday of last week with a good attendance. This was the opening fall meeting.

Mrs. Albert Matocha was hostess to the circle. An ice cream and sandwich social was planned for Sunday, September 12, to be held on the church grounds. The public is invited to attend the social, which begins at 5 p. m.

Six visitors were present at the circle meeting Wednesday. They were: Mrs. Zots, Mrs. Bill Parma, Mrs. John Hatula, Mrs. Med Swain of Sweetwater and Mrs. Victor Hinds of Needles, California and Mrs. Frank Polansky.

42 Party Honors For Miss Mondrik

Added to the many pre-nuptial courtesies for Miss Ethel Mondrik, bride elect of Franklin Drgac, a "42" party and kitchen shower was given on Friday night by Miss Marie Brod

and Miss Elizabeth Eanes, co-hostesses.

The entertainment was held on the terrace and the front porch of the Brod home. High score in games fell to Miss Lois Randolph, who received a cake box. Miss Mary Newton received the low prize, a kitchen tray. Table cuts which were cookies cutters, went to Mrs. Leona White, Mrs. Alvin Mindrik, Mrs. Aubrey

Hightower and Miss Dorothy Gohmert. Each of the prizes won in the game were presented to Miss Ethel. A basket laden with useful kitchen gifts were brought in by Beverly Mondrik and presented to the honoree.

A salad course was served to the following: Miss Dorothy Kidd, Mrs. Aubrey Hightower, Miss Florence

Hobson, Mrs. Walter Burns, Miss Alice Fanning, Mrs. Frank Mondrik, Miss Lillian Mondrik, Mrs. Vance Brock, Miss Mary Newton, Mrs. Alvin Mondrik, Miss Lois Randolph,

Mrs. Leona White, Miss Mary Randolph, Miss Ethel Mondrik, Mrs. Leo Hollas, Miss Elizabeth Eanes, Beverly Mondrik, Miss Marie Brod, Miss Dorothy Gohmert.

School

(Continued from page 1)

rather than the fifty minutes of last year.

A number of our teachers have found work which appealed to them in other places and have resigned through the summer. There will be two new teachers in the Ada Henderson school this year and six in the High School.

Miss Grace Wood, graduate of the Baylor University, with her major work in music, will have music, while Miss Aliyne Miller, a graduate of the University of Texas, will have one section of the second grade.

Miss Eunice Rader, a graduate of Southwestern University, takes the place of Miss Witherspoon in English eight. Mrs. R. T. Patterson, a graduate of the school of Business Administration of the University of Texas replaces Miss York. Miss Frances Sharpe, a graduate of the University school of Business Administration, replaces Mrs. Ross. Miss Drew, a graduate of C. I. A., replaces Miss Hardage and Miss Christine Miller, a graduate of the University of Texas replaces Miss Landgon. Miss Virginia Barganier, a graduate of the University of Texas and also of C. I. A. replaces Miss Love as librarian.

The other teachers will return to their respective places.

The administration looks forward to a successful term this school year and welcomes your full support in the efforts which are being made to progress with the changing conception of the duties of an educational institution. We extend willingly our offer of assistance to you as patrons in helping you with any of your children's problems.—E. A. Perrins.

Miss Mondrik Is Guest at Supper

As a courtesy to Miss Ethel Mondrik, who was married here on Sunday to Franklin Drgac, a supper was given at the Tampico cafe in Rosebud Wednesday night with Mrs. Frank B. Mondrik and daughter, Beverly, of Marshall, hostesses.

Included in the courtesy besides the bride and the groom, were: Mr. and Mrs. Alvin Mondrik, Mr. and Mrs. Walter Burns, Mrs. Frank C. Mondrik, and the hostesses.

As a hostess gift, a piece of flat silver was presented to the bride.

Remember This When

You Need a Laxative

It is better for you if your body keeps working as Nature intended. Food wastes (after digestion) should be eliminated every day. When you get constipated, take a dose or two of purely vegetable Black-Draught for prompt, refreshing relief.

Thousands and thousands of men and women like Black-Draught and keep it always on hand, for use at the first sign of constipation. Have you tried it?

BLACK-DRAUGHT

A GOOD LAXATIVE

SHERIFF'S SALE

THE STATE OF TEXAS
COUNTY OF MILAM:

NOTICE IS HEREBY GIVEN That by virtue of a certain Order of Sale issued out of the Honorable District Court of Milam County, on the 12th day of August 1937, by Penn Wolf, Clerk of said Court for the sum of One Hundred Twelve and 50/100 Dollars, and \$4.95 costs of Justice Court and cost of suit, under a judgment, in favor of The First National Bank in Cameron, Texas, in a certain cause in said Court, No. 11479 and styled The First National Bank in Cameron, Texas vs. W. B. Williams, Doll Williams and Ray E. Williams, placed in my hands for service, I, R. M. Kennedy as Sheriff of Milam County, Texas, did, on the 13 day of August 1937, levy on certain Real Estate, situated in Milam County, Texas, described as follows, to-wit:

150 acres of land out of the Daniel Underhill survey, patent No. 305, recorded in Vol. 142, page 26 Deed Records Milam County, Texas; said 150 acres being about 14 miles east of the town of Cameron, and described by metes and bounds in the order of sale above referred to, and known as the "W. B. Williams" place.

Also an undivided one-half interest in about 50 acres of land out of said Underhill survey as above described, being out of 180 acres conveyed by W. O. Oxshier to J. J. Williams and particularly described by metes and bounds in the above mentioned order of sale, and known as the "Doll Williams" place, and levied upon as the property of W. B. Williams, Doll Williams and Ray E. Williams and that on the first Tuesday in October 1937, the same being the 5th day of said month at the Court House door of Milam County, in the City of Cameron Texas between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said Order of Sale, I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said W. B. Williams, Doll Williams and Ray E. Williams.

And in compliance with law I give this notice by publication, in the English language once a week for three consecutive weeks immediately preceding said day of sale, in the Cameron Herald, a newspaper published in Milam County.

Witness my hand, this 13th day of August 1937.

R. M. KENNEDY,
Sheriff Milam County, Texas
By D. B. Gunn, Deputy. 3tc

Owensby's Will Leave Cameron

Mr. and Mrs. John Owensby and daughter, LaVerne are leaving Friday for Taylor to make their home. Mr. Owensby has been employed with the Community Gas company here and will be with this company in Taylor. They have resided in Cameron a number of years and have many friends who regret their leaving. LaVerne Owensby will enter the Taylor high school as a sophomore. She had been elected one of the three drum majors for the Cameron high school band.

BUCKY and his PALS.

BACK HOME AGAIN

By Ed Dodd

Grandpa Hamlet, Early Community Builder

By AVIS PLATTER
Route 1, Edgewood, Texas.

(Copyright, 1937, by the Southwest Magazine Co.)

AN Zandt county today, with its network of concrete highways, beautiful public and residential buildings, expansive rose nurseries and truck farms and towering oil derricks, is hardly suggestive of a frontier wilderness. Yet, within the memory of a few remaining old-timers, the area was, once a wilderness where deer and other wild animals roamed through primitive forests, and where panthers screamed defiance at night to early home-steaders.

Joe Hamlet, 86, known to his friends as "Grandpa Hamlet" was one of the hardy souls who braved the dangers of a pioneer era to establish a home in a new country. He moved to Van Zandt county nearly fifty years ago and chopped trees from the forest to build his log house. He fenced his 55-acre tract with sapling rails and used a team of oxen to cultivate his land. For food, he often killed a deer or a wild turkey.

Grandpa Hamlet, too, was a community builder. When civic problems needed solution he generally took the lead in working out a plan. He helped to build one of the early churches and once his friends nominated him for the office of sheriff, but he declined the honor.

"Sheriffs at that time had to hang criminals who had been given the death penalty," he explained, "and that kind

of a task was not to my liking. No, siree. I wouldn't have had the job if every man in the county had voted for me."

Takes Life Easy

For the past few years Grandpa Hamlet has been taking life easy. He is living with his daughter in the High Land community near where he settled. The original home was sold about 25 years ago and the money invested in New Mexico property. It turned out to be a bad venture for he lost everything he had accumulated.

Chopping wood and picking cotton, cutting sprouts and helping to care for his grandchildren now are the principal activities of Grandpa Hamlet. For pastime he reads and visits with the neighbors. He loves a joke and never passes up an opportunity to play pranks on friends.

Mrs. Hamlet, whom he married in 1877, died in 1935. He has one daughter, six grandchildren and five great grandchildren.

The most thrilling experience, perhaps, of Grandpa Hamlet's colorful career was the time he thought he heard his doom in the weird cry of a panther. It was when the little community church was being built and Hamlet had been asked to haul the lumber for the structure.

"It took four days to make the trip to the saw mill and back," he recalls. "I was doing fine until the last night coming back when I was forced to camp in the bottoms."

Weird Scream of Panther

"I fed my oxen and built a big fire. Then I made another fire and put the meat on to fry. The cooking meat had begun to smell real good and while I was planning the things we could do when the church house was built, I heard the weird scream of a panther not far away. It was coming after me or my supper."

"I froze in my tracks. I ran to get my gun but it was gone—lost somewhere along the route. Stark terror seized me. My hair stood on end and I trembled violently. It was either luck or Providence that I had the big fire."

"I ran to the fire and when I saw the hungry panther's eyes blaze in the circle of light and heard its menacing cry I knew what I must do. I threw burning embers at the animal and then yoked the oxen, one at a time. I knew my doom was sealed if I attempted to ride on top of that load of lumber. I threw more embers, then crawled in on the tongue between the oxen and started home."

"It was a slow tortuous ride with the panther circling and screaming. I expected it to attack me or the oxen at any time but it never did. It followed me several miles and then began to slow up and get further behind. Finally, I heard it no more. But I rode the tongue until daylight—and to safety."

Born in Kentucky

Hamlet was born in Graze county, Kentucky, in 1851, and recalls vividly the stirring days of the war between the States. He was only ten years old when hostilities broke out, but the conflict left an in-

delible impression on his memory.

"I was the oldest of ten children," he said. "My father was a cripple and walked on crutches. He taught school and made shoes. Neither brought much revenue, so we had pretty tough sledging."

"Times, always hard for our family, were even harder after war broke out. Mother and I raised a little patch of wheat for bread. I cut the wheat with the butcher knife, spread it on a bed sheet and beat it out with a stick. Then I poured it from one pan to another in the wind to get the trash, husks and broken stalks out. Next I put it in a sack and carried it on my shoulder to the mill where it was ground. It all came out together and the bran had to be sifted out. But we had much better bread than we have now. It was whole wheat and it was good. But even at that, bread was more or less of a luxury. Sometimes there would be

for father and us boys. We had to hide our clothes in hollow trees out in the woods to keep the Yankee soldiers from taking them. We had individual trees, so if one tree was found all the clothes wouldn't be lost. I learned to love my old tree because it guarded my clothes so well."

"One day the soldiers paid us a visit just after we had saved our pumpkin seed. They were put in a large vessel on the water shelf to dry. One of the soldier's horses walked up to the shelf and took a bite of pumpkin seed. Father's cobbler hammer was on the shelf. My younger brother picked up the hammer and hit the horse in the head so hard it knocked the animal down."

"One tragic visit the soldiers made us was when my little sister, May, was dying. They started catching our chickens. They chased them all over the place and chunked them under the house. We were all gathered around the bed crying. A big negro soldier came in and stood at the foot of the bed for a long time and watched the little girl as she lay dying. During all that time he had a big yellow rooster under his arm. We couldn't bear to look at him because it was the rooster that my little sister claimed for her own."

Came to Texas in 1876

"Most of the depredations of the Yankee soldiers took place in 1864 and I made a crop in Kaufman county in 1877 and met and married Nancy Morgan. We moved to Van Zandt county in 1888 and settled on 55 acres on the Myrtle Springs and Grand Saline road. Edgewood was the postoffice, and the surrounding country was a vast forest. Edgewood consisted of one blacksmith shop, one general store and postoffice combined, a depot and section house. There were only two cleared spots between Edgewood and Canton."

"I am proud of being an old-timer and like to contrast the present with the past. I have lived to see great changes and it has made life interesting. As for hardships, I've had plenty and don't mind them. Hardships develop a man's character, making him more self-reliant. The trouble to-day is that most of us want to dodge responsibility. We want many of the luxuries of life but don't want to work hard for them. God said man must earn his living by the sweat of his brow, and He meant just that. More sweat would solve a lot of problems that we are facing in America to-day. Work and faith in God and yourself will accomplish wonders."

"A slow, tortuous ride with the panther circling and screaming."

eight or ten days when we had no bread at all. Mother had a hearth oven that held nearly a half bushel, and it was in this oven she cooked our bread."

"In our Kentucky home at this time we didn't have any sugar except maple sugar. We tapped maple trees, cutting an angling gash in the early winter and catching the sap in troughs. This was cooked in the wash pot until the water was all cooked out. The sugar then would form big cakes which were stored away for future use. Many times when we thought we had a winter's supply of sugar, Union soldiers would make a raid and take every bit we had. Then we would have all our work to do over again and sometimes it would be too late to get any more sap. Once Yankee soldiers came by and took all our wheat and left us children crying for bread."

Hide Clothes in Hollow Trees

"Sometimes we planted a little patch of cotton. We youngsters picked the cotton; after picking it from the boll we picked the seed by hand. When that was done mother would drag out the spinning wheel and loom. It was my job to help her spin the thread and to weave the cloth for the clothes we wore. She wove material for breeches

Texas Salt Deposits of Vast Depth

By DON HOLLIS

P. O. Box 741, Tyler, Texas.

(Copyright, 1937, by the Southwest Magazine Co.)

IT has been said—and without fear of successful contradiction—that there is enough salt underlying the Grand Saline (Van Zandt county, Texas), area to supply needs of the entire nation for several generations. Statistics fans also have said that Van Zandt county salt, loaded into wagons two abreast, would more than encircle the earth.

As a matter of fact, no one knows the potential yield of Van Zandt county's salt deposits. The Grand Saline salt dome is known to be a mile and a half across the earth's surface but its depth has not been determined. A shaft sunk 700 feet through pure rock salt has enabled engineers to guess that the salt stratum extends at least 300 feet further down. Two huge salt plants—one mining the crystallized salt and the other using the evaporation process—are operated in Grand Saline by the Morton Salt Company, furnishing employment to 350 men.

Salt Deposits Over a Wide Area

Salt deposits in Texas are not confined to Van Zandt county alone. Large areas of the coastal region and the plains of West Texas are underlain with thick stratas of salt which crop out in many places, and salt water is found in deep wells throughout the State.

Salt has been produced for many years in Mitchell and Colorado counties, though not commercially. At different times and for several generations Harris, Anderson, Smith and Pecos counties have contributed to the salt industry. The salt flats north of Van Horn and at the foot of Guadalupe peak have produced salt in commercial quantities. In the early sixties a kettle plant, on the salt fork of the Brazos, in Young county, produced salt for the soldiers at Fort Griffin and for the buffalo hunters. On King Ranch, near Raymondville, is a salt lake from which salt has been obtained for several years.

Texas today is producing between 250,000 and 300,000 tons of salt annually. Most of this comes from the two plants of the Morton Salt Company at Grand Saline.

Just how long salt has been produced in the Grand Saline area is not known, though the Cherokee Indians are believed to have made crude attempts to utilize the brine industry centuries ago.

Control of the industry passed to the white men about 1840.

Old records and legends tell the story of how John Jordan and A. T. McGee who, while traveling through what then was the Republic of Texas, came upon a group of Indians near the site of Grand Saline squatting over a brine vat. Occasionally one of the savages would dip a twig into the liquid to test it for traces of crystallization.

After an exchange of greetings the travelers went their way. But the significance of the vat had not been overlooked, and they returned later to ply the Indians with questions about the "magic white sand," as it was known to the red men.

White Men Acquire Control

Negotiations were opened and soon

Previous to 1891 various attempts were made to mine salt in and around Grand Saline. Jordan and McKee operated two kettles in a primitive way, later succeeded by Fred Ham, who enlarged the salt plant by several more kettles. In 1859 Ham sold out to Samuel Q. Richardson, who added a pump to a well on Saline prairie, operating the pump with mule power and conveying the water three-fourths of a mile through hollowed log pipes laid on top of the ground to the Texas & Pacific railroad tracks at Grand Saline.

Evaporating Pans Succeed Kettles

A St. Louis firm took over the salt works in 1875 and made extensive improvements, installing large square shallow evaporating pans to take the place of the primitive kettles. Later Richardson again acquired control of the business and drilled the first well into the salt dome. By 1891, when Major Parsons entered the picture, Grand Saline had attained recognition as a salt center and was marketing its products over a wide area in the Southwest.

The Morton Salt Company, present owners and sole operators of the Grand Saline salt industry since 1920, used the evaporation process exclusively until about six years ago. The brine was pumped into huge vats and allowed to crystallize. Then the crystallized particles were carried through a chute into a large drying oven. Later it underwent further refining and was automatically packed into containers ready for shipment and for marketing.

Decision to sink a shaft in the salt dome was reached by Morton Salt Company officials in 1929. Sixteen months were required to drill the shaft a depth of 700 feet through the solid rock salt formations. But production on an extensive scale did not begin until the early part of 1931. The huge shaft is in three compartments—two for hoisting and one for ventilation.

The interior of a salt mine looks very much like that of a coal mine, except the walls are a sort of dingy white instead of black, and the galleries and rooms are much larger. The average room in the Grand Saline salt mine is 350 feet long, sixty feet wide and eighty feet high. The rock salt is dislodged with dynamite and with electric drills and sent to the surface of the shaft in a huge bucket where it is crushed, culled and put through a rather intricate refining process. Then it is automatically packed into cartons for shipment.

At bottom of Grand Saline salt mine, 700 feet below the earth's surface.

the white men acquired control of the salt-bearing land. In the early forties initial steps were taken toward commercial production. Jordan assumed the lead in the venture and the settlement, which later became Grand Saline, was known as Jordan's Saline.

For the first few years little importance was attached to the salt industry. But during the war between the States salt became such an important commodity that the Van Zandt county plant was taken over and operated by the Confederate government.

Government control of the plant ceased at the end of the war and, because of economic conditions, it was several years before production was attempted on an extensive scale. Even then, equipment was so crude that the venture did not prove profitable. It was not until 1891 that the first up-to-date salt plant, operated by steam, was erected by Major Byron Parsons.

Training Young Air Pilots

The world is seeking new wings. The current war scare may result in a batch of trouble, but right now it's certainly putting youth in the air. The nations of the earth are training pilots as fast as possible—sometimes, perhaps, too fast.

Not long ago 12 army planes zoomed off a Norwegian airport, headed for an air celebration in another part of the country. At the controls of most of them were student pilots who were going to get valuable cross-country experience, beside showing what fine air-men Norway is turning out.

Along came a thunderstorm and when it passed four of the planes were gone. One was reported missing. The other three crashed. One pilot was killed.

There's this to be said, however: accidents in training military birdmen must be expected. Reason, of course, is that when students fly in close formation the first few times it's generally a perilous procedure.

Down at Kelly Field, San Antonio, Texas, the U. S. Army's advanced flying school, scarcely a week goes by that one or more planes don't flutter from formations with wings locked. Fortunately, in most cases the pilots manage to parachute to safety.

As a matter of fact, our Air Corps has set a remarkable safety record in military flying. Two years back, its annual death toll was only 56, less than the number of Army pilots on the ground in auto smash-ups.

Mention of military crack-ups brings to mind one in France a year or so ago. One plane plunged right through another, cutting the second craft cleanly in two. Yet, neither pilot was hurt! In fact, the plane that did the cutting wasn't even scratched and the pilot went back to his formation. The oth-

er flier used his parachute to descend to safety.

Incidentally, last fall France popped up with a new wrinkle in training fighting fliers. The youths eventually pay for the privilege of learning how to die gracefully in a "dog fight." It's like this:

Schoolboys 9 to 14 are given "pre-aerial" courses along with their regular school duties. Between 14 and 17 they're taught to manage gliders. Then comes flying instruction—at a "small cost."

Ostensibly, the whole plan is to put more commercial fliers in the French air. However, French airlines are government owned and managed as training grounds for war fliers.

But France is not the only nation that has started getting war birds young. Austria and Germany have begun acquainting grade school youngsters with planes through the medium of model airplane courses, taken as part of the regular curriculum.

In the latter country, one of the instructors is the daring woman flier, Thea Rasche, holder of several world's records and principally famed over here for once flitting under several bridges spanning New York's East River.

England also calls to young men. Experienced private pilots have offered to join the Royal Air Force, yet when only 25 have been rejected as "too old."

But the rush to train military fliers isn't limited to large nations. Down in Cuba air cadets get most of their practice breaking up communist parades which disturb the peace of mind of Cuba's boss, Col. Batista.

South Africa also is increasing its air force and is having a bit of trouble with recruits. The fledglings claim they are only permitted 10 or 45 minutes of flying each day.

CURRENT (EDITORIAL) COMMENT

By R. L. PASCHAL
409 E. Weatherford St., Fort Worth, Tex.
(Copyright, 1937, by the Southwest Magazine Co.)

Newsprint From Southern Trees

Due to better methods of processing our second-growth pines and other trees, it is altogether possible that within a few years the South, including Texas, may produce most of the newsprint used in the United States. Formerly the Northern States, notably Maine, were our principal producers of woodpulp. When the supply in these States was almost exhausted, newspapers turned to Canada, which for years has been supplying American newspapers with most of their newsprint.

Woodpulp from the Southern pine is of good quality. Due in part to the longer seasons a Southern pine will grow large enough to be available for woodpulp in ten years. It requires forty to fifty years for trees in Canada to reach the required size.

Although an immense amount of newsprint is now used and the demand for it may increase, the South with proper forestry can always supply much that is needed. Lands depleted by cultivation and by erosion are soon covered with a thick growth of these pines. They bid fair to be a valuable asset to many a land owner.

Texas industrialists have formulated plans for a 200-ton East Texas newsprint mill to be in operation in 1938. It is estimated that Texas newspapers alone consume annually about 150,000 tons of newsprint.

The Spread in Prices

Both the farmer and the consumer are penalized by the enormous spread between the price the farmer receives and the cost to the consumer. We know of a transaction where a farmer sold sweet potatoes early in the season for five cents a pound to a grocer, who im-

mediately began to sell them to his customers at ten cents a pound. Of course, the grocer performed a real service, but it is not worth as much to weigh out and distribute potatoes in small amounts as to plow the ground, furnish the seed, bed the potatoes, keep the bed watered, set out the potato slips, cultivate them, dig the potatoes, maybe store them, and haul them to market.

In the case mentioned there was one middleman between the producer and the consumer. Generally there are many, so many that there is little relation between the price the farmer receives and the cost to the consumer. A few years ago our farmers were much exercised over the number of these middlemen, all of whom had to have pay for their services. Of late we have heard little about it, although there has probably been no decrease in the number.

The seasonal spread in the prices of perishable groceries is great. Some of this spread is justified, for it costs something to keep them in cold storage, and there is always the risk of having a part of them left when the new crop comes upon the market. The spread seems to us in certain instances to be too great. We have just read that the farmers of northeastern North Carolina have had to sell their potatoes at so low a price that they would have been better off had they planted none. Last year the farmers of Maine allowed great quantities of potatoes to rot in the fields because they could not sell them for enough to pay for gathering and hauling them to market. Potatoes sold higher last winter to the consumer than ever before—so high that many housewives used substitutes.

The transportation companies, wholesalers, jobbers, warehousemen, are all

entitled to a reasonable profit for service, but they should recognize that they have an obligation to society to render said service at a price as low as possible. All of them should unite in an effort to reduce cost of overhead and pass this reduction on to producers and consumers.

How Much Are You Worth?

What you are worth seems to depend on your choice of work for life. The New York Times tells us that Dr. Harold F. Clark, of Columbia University, and a numerous staff of assistants have for eight years been studying data to determine the answer. They wished to give better advice concerning the choice of a profession to their pupils. So broad has been the investigation that Dr. Clark considers it now possible to say how much a budding doctor, lawyer, architect, engineer, journalist, minister, teacher, farmer, or farm laborer is worth when he begins his life's work; that is, his present worth at that time.

The estimated present life value of a doctor, who heads the list of 16 occupations, is \$108,000; of a farm laborer, \$10,400. The average years of active work varies from 40 years for nurses to 51 for farmers and farm laborers.

To understand Dr. Clark's figures we will assume that a young doctor goes to a banker and offers to mortgage all that he makes throughout his life career and turn it over to the banker for a lump sum of around \$108,000. The banker, who expects to make 4 to 5 per cent on his investment, gives the doctor this sum for his earnings for life.

Under the same arrangement, the banker presumably would give to a young lawyer \$105,000; to a dentist, \$95,400; to an engineer, \$95,300; to an architect, \$82,500; to a journalist, \$41,-

500; to a minister, \$41,000; to a public school teacher, \$29,700; to an unskilled laborer, \$15,200; to a farmer, \$12,500; to a farm laborer, \$10,400.

These figures will indicate to a young man what compensation he may expect in the professions named. If all were alike talented, large numbers would flock to medicine, law, dentistry, engineering and architecture. Not all are mentally or financially equipped for these professions. The doctor must have excellent natural endowments; the best medical colleges now require that prospective students shall have had four years in high school and four years in college, and shall have made excellent grades in each of these institutions; after that, come four years in medical college and at least two years of internship in a hospital. Preparation for some of the other professions is almost as costly in time and money.

It is good to know that for doctors as well as for farm laborers there are other compensation for work which money cannot measure. The minister and the teacher live a life of self-sacrifice, but they enjoy the respect and love of those whom they have served; no little reward. It requires intelligence to be a good unskilled laborer, but he is free from the care and worry of business for sixteen hours of the twenty-four, while the doctor may be called from his bed at any hour of night. One needs a high order of intelligence to be a successful farmer, but the farmer has "the glorious privilege of being independent."

One mistake a young man may make is to measure all values in money. There are other and more satisfying values, and these values may be had by those in any profession, provided the worker is fitted for the work, and "do with all his might whatsoever his hand findeth to do." The money such a man receives for his work is but a small fraction of his compensation.

Judge Not

We quote three headlines from a morning paper:

1. "CHINA, JAPAN ABANDON HOPES FOR PEACE AS CONFLICT RAGES ON PEIPING FRONT."

2. "GOVERNMENT TROOPS IN RETREAT BEFORE INSURGENTS IN CRUCIAL BATTLE OF WAR."

3. "THREAT TO NATION'S PEACE ENVISIONED BY WAR, SECRETARY WOODRING WARNS AGAINST ATTEMPT TO ADJUDGE NATIONS."

The first tells that a Japanese army has attacked the Chinese on Chinese soil. The second, tells how the insurgents in Spain, aided by many thousands of Italians and Germans as well as by German and Italian airplanes, are battling for Madrid.

Under the third headline we read extracts from a speech by our Secretary of War to a convention of American Legionnaires. He warned that danger of America's involvement in a foreign war lies in "attempting to pass moral judgment on the motives and responsibilities of other nations."

"Such an action," he said, "might easily be the first step toward involving ourselves in hostilities. . . . We abhor war, but we are often among the first to pass moral judgments and to take sides among belligerents."

Mr. Woodring has given advice which Americans, long accustomed to think what they please and to say what they think, will not heed. We do not know that they should. Every man is under moral obligation to learn all he can about any question before he makes up his mind. We do not see how any man who thinks at all can fail to come to some kind of decision about the right or wrong of a question if he has his information from reliable sources. Possibly Mr. Woodring means that our people avoid violent languages in the expression of their moral judgment. If so, we agree with him. Whether it be dangerous to our peace or not, all Americans have already formed some opinion about the moral right of Japan in China. We would not suppress the expression of that opinion. For, as John Stuart Mills says, "the evil of suppressing the expression of an opinion is that of robbing the human race."

Hemp in Texas

Hemp, an East Indian plant, the fiber of which may be easily separated from the stalk, has long been used in the far East for making cord and coarse textile fabrics. For many years it has been grown in Kentucky and some other States for its fiber, which is valuable in the textile industry.

At Raymondville, in Willacy county, Texas, the Texas Hemp Corporation built a factory for processing the plant to get its fiber, and thirty or forty farmers in the community went to growing it and found a ready sale for it at a comparatively good price.

Our Legislature has recently passed a law making it a felony punishable by two to ten years in the penitentiary to grow any narcotic plant in Texas without a permit. Our Governor says no permit will be issued to growers of hemp. The powerful drug hashish, similar in its effects to marihuana, may be extracted from it. Acting under orders of the Department of Public Safety, the farmers near Raymondville have destroyed all their hemp and will plant no more. Officers throughout the State have been instructed to ferret out any small patch that may exist and destroy it.

These Willacy county farmers have our sympathy. Hemp has been grown elsewhere in the United States and no question raised. However, it was grown for fiber, not for production of a drug. Growers have had to make a great sacrifice because the plant can be put to a bad use by those evilly disposed. Hemp-raising might have developed into a great Texas industry. But, considering the general welfare, our Legislature was probably justified in passing a law to make more difficult the obtaining of a plant that can be used to degrade men and women.

A Benefactor of Mankind

In 1895 a young Italian, hitherto unknown to fame, announced that he had discovered how to telegraph without the use of wires. He was then only 21; his name was Guglielmo (William) Marconi. His discovery was made possible by the work of others who had preceded him, but he saw the significance of what others had found out, and to him belongs full credit for wireless telegraphy, which has greatly modified, if not revolutionized, the social, economic, and commercial life of the world.

Wireless first served humanity by establishing communication from ship to ship or from ship to shore, and by this means countless lives on ships in distress have been saved as well as property of untold value. Its first effective and dramatic use was in the rescue of the ship Republic by the Baltic in 1909, after the former had collided with the Florida off Nantucket. In answer to SOS calls from Republic, the Baltic hastened to its rescue and succeeded in saving the ship and all men, women and children aboard.

As the invention was further perfected, it came into commercial use, at first for comparatively short distances. It was a great day for Marconi and for the world when he succeeded in sending a wireless message across the Atlantic. Nearly every nation can now communicate with other nations by means of wireless. It and its developments of wireless telephony and radio are indispensable in modern warfare for communication between armies in the field and general army headquarters.

Radio and television are developments of wireless. Communications between cities when all wires are down or broken and the outside world has been made possible by radio. It brings into our homes programs of music, athletic contests, general news, public speaking and announcements of worthwhile interest.

In this fortunate age we can hardly realize that only thirty years ago there was no such thing as radio and that it has been only 42 years since Marconi discovered wireless. It would seem almost impossible for the world to continue its scientific, commercial and intellectual progress if it were bereft of radio.

Marconi passed away in July. He will be enrolled with that great Italian Galileo as one of the foremost scientists of all time.

Why was he able to contribute so much to mankind? The answer is not far to seek. It lies in one little word of four letters W-O-R-K. At the time of his death he left unfinished his far-reaching development of extra-short waves, so as to make possible easier radio communication with the most distant countries.

NEED FOR BETTER COTTON

Speakers at annual convention of West Texas ginners, Abilene, stressed importance of growing better quality of cotton, otherwise Texas, which exports about 90 per cent of its cotton, is in danger of losing more of the export cotton market.

Grass Root Reveries

By JOE GANDY
Winnabow, Texas.

(Copyright, 1937, by the Southwest Magazine Co.)

If America is ever forced into war there isn't a chance to beat our ploughshares into swords and our pruning hooks into spears because the scrap iron collectors have bought (or stolen) from us farmers about all our old ploughshares and pruning hooks.

Some doctors have been using an iron lung in treatment of respiratory cases. Why can't they add an iron heart, iron stomach, etc.? I've needed an iron stomach for years to digest left-overs.

So far us farmers have been living on Faith, Hope and sometimes Charity, but cotton is opening now and we can get by without charity. The days have been long and hot but we stayed right in there and pitched and we folks in Northeast Texas are wonderfully blessed with good crops, including babies, so what we got to worry about?

It is more pleasant after an honest year's work to sit in the cool of the shade and watch the humming birds flit around honeysuckle vines, at peace with God and man, rather than fighting and killing neighbors and civilians like some foreign nations are doing.

Right when I had my eye on the only spot in the world where I could keep cool and be free from politics and nudism I find it occupied by four Russians and a dog.

A Philadelphia doctor has perfected a machine for classifying headaches. With this machine, he says, you can tell whether your headache is caused by over-eating, loss of sleep, loss of money, high taxes, high living costs, low in-

come, poor relations, hot weather, hot dogs, noisy auto horns or noisy radios. This about covers the cause of most headaches. But if some man will invent a machine to remove the cause he will be a national hero.

It is interesting to study history of different ages—the Stone Age, the Bronze Age, the Iron Age and the Steel Age. Wonder if we are now entering the Haywire Age.

A writer gives some interesting tips on how to detect good money from counterfeit. He says George Washington's picture is on the \$1 bill, Lincoln's picture on the \$5, Hamilton's on the \$10, Jackson's on the \$20, Grant's on the \$50, Franklin's on the \$100, McKinley's on the \$500 and Cleveland's on the \$1,000. Thanks, but so far I haven't seen any picture on any bills but Washington's.

A sales tip to snuff manufacturers: A lady acquaintance has told her husband if he will buy his snuff in cute little tinted glasses so she can use them to put jelly in when empty she will not object to him using snuff. But that idea is fraught with grave possibilities; distillers might put up whisky in cute little tinted glasses.

There is some talk of reforming our Texas prison system. Wouldn't it be better to first reform the prisoners?

A man has written an instructive article on "How to Keep from Being Murdered." I happen to know some people who have not been murdered and most of them never fell in love but once, married the girl, went to work, attended to their own business and kept their mouths shut. This recipe, if followed, will invariably keep any man from being murdered.

I know a woman who worries because her husband notices a run in another woman's stocking before he notices one in hers. That is queer, but most men are queer. They put blind bridles on horses so they can look only straight ahead and specs. on themselves so they can look ahead, up, down or sideways.

There is an old saying that "a fool and his money are soon parted," but I know a lot folks who are not fools yet are soon parted from their money. A farmer friend of mine, not a fool, sold a bale of cotton the other day for \$50 and was soon parted from his money. The banker got it.

It is said that roofs of modern trailers can be detached and used for boats. Thus the modern trail-blazers can now start out and get there in spite of h— or high water.

While helping her dog dig a mouse out of a hole a Missouri girl found a fruit jar, long buried, that contained over \$600 in gold. Mice and men, says a poet, "gang aft agley," which means I suppose, that when either gang up they have a swell time. Men look on mice as foolish little things—and, for all we know, mice look on men as foolish big things.

Here is hoping September will not repeat those torrid days we had in August. Somebody up there in Washington must have turned on the heat while Congress was in session and it backfired all the way to Texas.

Speaking of weather, a Kansas friend, who vacationed in Texas last August, told me that Kansas was hotter than Texas. This lends some credibility to the story coming out of Kansas several years ago to the effect that during one terribly hot summer the Kansas farmers fed cracked ice to their hens to keep them from laying hard-boiled eggs.

I have given up trying to pronounce these Japanese-Chinese names. For instance, a dispatch in the paper says: A Jap airplane dropped bombs on Wangpootzeacheechow and Chinese troops fired on the cruiser, Idumajakiyaho.

"Put specs. on themselves so they can look ahead, up, down or sideways."

An Emergency Case

By Bernard Dibble

LOOY DOT DOPE

BRIEF TEXAS NEWS--from Over the State

POPCORN POPS IN FIELDS

August heat caused some ears of popcorn growing in the fields near Edinburg, Rio Grande valley, to pop on the cob, says the McAllen Press.

867 ILLICIT STILLS SEIZED

Federal agents seized 867 illicit Texas stills during the fiscal year 1937, the Treasury Department reports. The previous year they seized 808.

PINK RATTLESNAKE

It is reported that CCC workers in the proposed Big Bend National Park have killed, embalmed and put on display in the temporary museum of the park a 4-foot pink rattlesnake.

CHAMPION RAIL-SPLITTER

Rail-splitting days are not yet over, according to Will Carr, of Sherwood (Irion county), who claims to have split 120,000 rails during the 4-year period he worked in the hills around Sherwood.

CHOKED TO DEATH BY GASOLINE

Greenville Herald: "Willie Gene Body, age 8, local colored boy, was ordered by parents to syphon some gasoline from a barrel. While sucking the gasoline into a syphon it strangled him and he was choked to death."

CATCHES OLD THREE-FOOT

County Trapper B. Frazier outsmarted old Three-Foot, a notorious coyote, and caught him in the Fairview community of Wilson county. Three-Foot had ravaged livestock and poultry for four years. He had previously lost one foot in a trap.

YOUNGEST COLLEGE PROFESSOR

Lamar Junior College, of Beaumont, claims the youngest college professor in Texas. He is 21-year-old William Conner, of Kingsville, who will become an assistant in the science department when school opens in September.

75-TON DREDGING FRAME STOLEN, SOLD FOR JUNK

The story of the steel bridge that was stolen, dismantled and sold as junk in Waco has been matched by thieves who stole a 75-ton dredging frame, a \$30,000 machine, in Galveston and sold it as junk in Houston. The thieves cut the frame to pieces with acetylene torches.

81-YEAR-OLD CHURCH

The Lancaster (Dallas county) church, founded July 26, 1856, celebrated the 81st anniversary of the organization of the church. The first child to be christened in the church, E. S. Guy, participated in the ceremony. Another participant was Mrs. Lizzie Peacock, 87, one of the first dozen members of the church.

NEW LONDON'S NEW SCHOOL BUILDING

Preston M. Geren, Fort Worth architect, has blue print plans completed for New London's new school building, and says construction should start sometime in September. The new structure will be "E" shaped, 160 by 280 feet, of re-inforced concrete with solid brick exterior walls and gypsum block interior partitions. It will cost \$250,000. Plans for heating are by steam, not gas radiators.

2,563,000 BOXES OF GRAPEFRUIT PROCESSED

Citrus processing plants in South Texas used an equivalent of 2,563,000 boxes of Texas grapefruit during 1936-37 season. Culled fruit was used for processing, which ordinarily would have been destroyed, and is an increase of 314 per cent over the amount used last year. To growers it represented an added income of about \$700,000, said the Bureau of Agricultural Economics, at Austin.

KILLS FLIES WITH ELECTRICITY

Joe Meyer, horse and mule dealer of Palestine, Texas, has partially solved the fly problem by killing them wholesale with electricity. In his barn he built a sort of box over the open top of which is stretched a wire screen, the mesh just wide enough for a fly to flit through, but Mr. Fly doesn't flit through, for as soon as his wing touches the wire an electric charge kills him quickly. Meyer says he kills a box full of flies each day.

WARNING TO PARENTS AND CHILDREN

Clay Turner, secretary of the Dallas Traffic Commission, said that of the 14 babies born every day in Dallas, three will be the victims of serious automobile accidents before reaching the age of 45. "It is the duty and responsibility of parents," advises Mr. Turner, "to protect children as much as possible from this ever-growing menace."

Traffic accidents in the nation in 1936 killed 1,300 children under 4 years of age.

\$8,000,000 HIGHWAY IMPROVEMENT

Orders for approximately \$8,000,000 of road improvement, including \$7,766,612 for the maintenance of Texas' 21,000-mile highway system has been announced by the State Highway Commission.

AUGUST PENSION CHECKS

TOTALED 117,665

W. A. Little, Acting Pension Director, Austin, said the Old Age Pension Assistance Commission mailed 117,665 August checks to needy aged, 6008 less than in July. The net reduction since June was 10,193, he said.

KILLS COYOTE WITH FLAT IRON

The Carrizo Springs Javelin prints the following wolf story:

"Attracted by a commotion raised by his dogs early Monday morning Mr. D. F. Frazier stepped out in his yard to investigate and found a full grown coyote mixed up in a hot battle with the dogs. Frazier picked up a heavy flat-iron and killed the wolf. He said he had been around Carrizo Springs for a long time, but this is the first time he ever went wolf hunting in his front yard."

STATE EXPENDITURES 1920-37

It is estimated that by the end of the current biennium, the annual State governmental expenditure shall have reached a level of \$175,000,000. This will represent an increase of 85 per cent over 1930, 400 per cent over 1920 and 1,000 per cent over the annual average immediately preceding the World War.

LAST OF WAGGONER RACING STOCK SOLD

All of the running stock, brood mares and stallions of the Three-D Stock Farm, at Arlington Downs race track, near Fort Worth, have been sold. President Cardenas, of Mexico, recently purchased the two imported English stallions, Phalaros and Stamford. While trying to develop a Kentucky Derby winner, the late W. T. Waggoner paid \$60,000 for Phalaros and \$50,000 for Stamford.

BULLFROG FARM

C. H. Voss, of Post Oak, (Austin county), operates a unique farm—a bullfrog farm—where he raises frogs for folks who relish eating fried or broiled frog legs.

Mr. Voss says feeding the frogs cost him practically nothing, for he has erected strings of electric lights across the frog ponds that attract thousands of insects. Soon as an insect strikes the water the alert frogs pounce upon and devour it.

BIRTH OF BABY GIRLS TO MOTHER AND DAUGHTER SAME HOUR

A San Antonio local hospital reports that a mother and daughter gave birth to baby girls at the same hour. One baby was the fourteenth child of Mrs. Mable Dears, age 45, the other baby was the second child born to her daughter, Mrs. Dorothy Moore, age 18.

LEADS IN RURAL PRIMARY ROAD MILEAGE AND ROAD CONSTRUCTION

The U. S. Bureau of Public Roads, in a recent tabulated statement, said that Texas had more mileage in its rural primary road-system than any other State in the nation, had more low type surface roads and was second in amount of road surfacing.

BUYS AUTO WITH 7,400 PENNIES

Two washtubs full of pennies—7,400 in all—was the medium of exchange that C. E. Winn, of Fort Worth, used in purchasing an automobile from Martin D. Wolfe, a dealer at Arlington, Texas. Winn owns a lot of penny scales and vending machines and had put the \$740 in pennies in two washtubs. It took the dealer two hours to count the pennies.

U. OF T. MONTHLY ROYALTY INCOME \$58,000

Berte R. Haigh, University of Texas geologist, says that the average monthly income of the university from oil royalties is about \$58,000. Total royalty income to date is over \$20,000,000 from 2,000,000 acres of university land in 19 West Texas counties.

PLANS OF POSSUM KINGDOM DAM

Allocation of \$4,500,000 by the government for construction of the Possum Kingdom dam, on Brazos river, 20 miles northwest of Mineral Wells, Palo Pinto county, calls for a storage reservoir creating a lake sixty miles long. Height of dam will be 130 feet above the river bed, length from shore to shore 2,200 feet, width at bottom 200 feet, at top 15 feet.

TRAPPER OF TURTLES

The Kingsville Record tells about W. C. (Bill) Broadnax, senior student in animal husbandry at A. & M. College, finishing his second month as trapper of turtles. Bill's strange occupation is netting him money which he will use to help pay his way through college. He sells the turtles to hog-raisers for hog feed. To date, as of July 20th, he had caught and killed 3,700 turtles.

ROSE WINDOW

Into one of the most beautifully designed windows of America, the famous Rose Window of Mission San Jose, San Antonio, was woven more than 200 years ago the story of a broken heart. Rose Window, still regarded as a masterpiece of architectural art, has been referred to as a monument to a faithless woman. Early in the eighteenth century, when Mission San Jose began slowly to rise above the surrounding Texas prairie, a young sculptor by the name of Don Huicar went to the padres in charge and asked that he be allowed to do the architectural ornamentation of the building with a free hand in its design. His sweetheart back in Madrid, Spain, who had promised to wait for him had broken her vow and married another, he explained, and it was his hope to find solace in his art work. The request was readily granted and his burden or sorrow became an inspiration as the beautiful and intricate Rose Window designs took shape under his chisel. After its completion the window became the marvel of artists the world over and is visited annually by thousands of art lovers.

204 MILES OF BROOMCORN

Muleshoe Journal: "Lee Bruce, once a railroad man, then a farmer last year, turning politician and being defeated in the sheriff's race, is farming again, and has just completed harvesting 204 miles of broomcorn. There were 204 rows of the crop, each a mile long."

7,127 BRIDGES ON STATE HIGHWAYS

Recent figures disclose that on January 1, 1937, 7,127 bridges are maintained on State highways, of which 4,855 are concrete. These figures do not include 311 underpasses and overpasses.

TEXAS FARM POPULATION CHANGES DURING 1936

The Division of Farm and Ranch Economics estimates the following changes in Texas farm population during 1936:

Population living on farms January 1, 1936	2,316,700
Number of babies born on Texas farms during 1936	63,000
Number of persons moving to farms from towns and cities	49,000
Number of persons (net) moving from Texas farms to towns and cities	12,000
Number of persons moving from farms to towns and cities	96,000
Number of deaths on Texas farms during 1936	29,000
Excess of births over deaths	33,000
Net migration from farms to towns and cities	47,000
Net migration from Texas farms to farms in other States	12,000
Decrease in Texas farm population	26,000
Population living on farms January 1, 1937	2,290,700

DEAF MUTE LIFE-SAVER

A press dispatch from Galveston said that Leroy Colonebo, a 30-year-old deaf mute, who serves as life-guard along the Gulf beach, has saved the lives of 106 persons in 15 years.

Leroy, State distance swimming champion, has won 22 medals and 10 cups for aquatic feats.

SPRY AT 101

Uncle Dick (W. D. Lanier), of Flint, Smith county, age 101, while taking in the sights of Dallas, told a reporter what he liked best was "some good fiddle music and pretty girls to dance with." Uncle Dick has no recipe for long life. "God Almighty just wants me to live, I guess," he said.

SOW ADOPTS POLECAT

Recent stories have been told through the press about a cat adopting a squirrel, a hen adopting a kitten and a dog adopting a pig, but the strangest adoption comes from West Texas, says the Paducah Post. A sow owned by J. A. Britton, of Delwin, Cottle county, adopted a baby polecat. The sow was discovered by Mr. Britton with a litter of nine baby pigs and the polecat was sucking the sow along with the pigs.

COLLECTS AUTOGRAPHS OF GOVERNORS

R. M. Bruner, Houston oil operator, has collected the autographs of every Governor of the 48 States. Signatures of the Governors are written across the face of Texas Centennial stamps. Bruner has had many cash offers for the collection. He said a big department store in Dallas offered him \$27,000 for the collection to use in advertising the store, but he turned the offer down.

U. OF T. SALE OF OIL AND GAS LEASES

Oil and gas rights in nearly 100 tracts of University of Texas lands in West Texas will be offered for lease at a public auction, in Austin, October 22. Most of the tracts are quarter section size.

SCRAP METAL SHIPMENTS DECLINE

Texas railroads report scrap metal shipments declining, due it is believed, to exhaustion of this kind of metal. Since January 1st, 250,000 tons of scrap metal have moved out of the port of Houston to foreign countries. Galveston, Texas City and Beaumont cargoes have been heavy, most of it going to Japan.

LIBRARY ON WHEELS

A "library on wheels" is proving popular with residents of Harris county. The "book-mobile" travels through the county every two weeks, stopping at smaller towns and communities where regular library facilities are not available. The library consists of all types of fiction and non-fiction books.

ONE MAN WEDS THREE SISTERS

During a land title suit case, tried in Houston's district court by Judge Allen Hannay, it was discovered that one of the landholders had married three sisters in three years. The first two sisters died.

BANANA TREES 35 FEET HIGH

Texas soil can grow almost anything. Six miles south of La Feria (Cameron county), are a clump of banana trees 35 feet high, planted four years ago by Mr. L. A. Kerr. This season the trees produced thirty bunches of finely-flavored bananas.

SAM HOUSTON'S SON ATTENDS DEDICATION CEREMONIES

Colonel Andrew Houston, only living son of General Sam Houston, of San Jacinto Battle fame, and Jeff Hamilton, negro boy servant of General Houston, attended dedication ceremonies, August 5th, of a marker on the site of General Houston's former home at Houston Point, Harris county.

FOUR CALVES BORN TO ONE COW

A registered Jersey cow owned by County Agent M. G. Perkins, of Burleson county, gave birth to four calves July 28th, two males and two females, fully developed. They died soon after birth. Mr. Perkins has a photograph of the cow and the four calves. Husbandry department of the A. & M. College said only three other such births had occurred in the United States.

MELON FROM SEED GROWN IN HOLY LAND

Jasper Newsboy: "A melon of a variety grown in the Holy Land was displayed in Jasper by R. B. Mitchell, of Kirbyville. The melon, grown on Mitchell's farm four miles north of Kirbyville, was one of about 20 produced by seed brought to him by a friend who visited in the Holy Land. Weighing about five pounds, the melon is similar to a cantaloupe in appearance, having a yellow rind. Mitchell reports that the fruit has a very fine flavor."

FIRST PENSIONER CELEBRATES BIRTHDAY

Frank Kaimer, who last year received from Governor Allred the first old-age pension check to be issued in Texas, celebrated his 104th birthday July 9. Son of a peasant, he was born in the Austria-Hungarian empire July 9, 1833. Mr. and Mrs. Kaimer arrived at Galveston from Bremen, Germany, in 1871, purchased two oxen, a wagon, and in this conveyance traveled to Fayette county where they settled, began farming and have since lived. Mrs. Kaimer is 96.

CLOCK TELLS TIME OF HOUR ALL OVER WORLD

Charles Schibetta, 503 Binz building, Houston, has invented a clock which tells the time at any hour of the day in 24 principal countries. If it is 2:45 p. m. in Texas the clock will show that at the same hour it was 3:45 p. m. in New York; 4:45 p. m. in Bolivia; 5:45 p. m. in Rio de Janeiro; 9:45 p. m. in Germany; 2 a. m. in Bombay; 7:45 a. m. in New Zealand.

For several generations Mr. Schibetta's family has made clocks in Italy.

LAST CONFEDERATE SURVIVOR OF 500

Last survivor of more than 500 young men who volunteered for service in the Confederate army from Ellis county is Benjamin C. Lancaster, who recently observed his ninety-first birthday at the home of his daughter, Miss Kate Lancaster of Italy. Lancaster was in Parson's Texas Cavalry Brigade, serving in Company F under Capt. G. W. Veal.

Born in Tennessee, he came to Texas in 1848 and has lived in Ellis county since that time, with exception of four years in the Confederate army.

PERFUME BASE FROM CEDAR POSTS

The little Texas town of Grafard, in Palo Pinto county, is helping to furnish oil for the perfume makers of France and Japan, says C. L. Douglas, staff writer of the Fort Worth Press. This oil is brewed from cedar fence posts by a refining company at Grafard. The fence posts, cut from Palo Pinto county hills, are shredded into bits, boiled down to a consistency and the oil extracted by distillation. The fragrant cedar oil makes an excellent base for fine perfumes. It is shipped in 50-gallon containers to Houston and New York for export to France and Japan.

HOT CHECKS INCREASE IN HOT WEATHER

Mrs. Alex Carson, Jr., in charge of hot checks in the District Attorney office, Dallas, says hot checks always increase during hot weather. In one year, 1933, she collected \$52,000 on bad checks. The largest was \$6,000.

About 50 per cent of all bad checks handled by the District Attorney's office are cashed to purchase gasoline and oil, Mrs. Carson said. Two of the strangest checks that bounced back was an \$18 one to buy a wedding dress and one to buy a lot for a corpse awaiting burial.

Mrs. Carson believes that the hot check business would decrease one-third if merchants and business men generally were as careful in cashing checks as they are in extending credit.

Look What He Drew!

FRITZI RITZ

By Ernie Bushmiller

A good golf shot and a good cup of coffee have one thing in common — they go straight to the spot. Take **Admiration**, for instance: it has an aroma that tantalizes; it has a flavor that satisfies; it has a freshness that cannot be beaten. What more could you ask of coffee? That **Admiration** is a favorite of the majority of Texans is proved by the volume of its sales —

larger than that of any other coffee in Texas. It must be good! Have you tried it?

Admiration Coffee

DUNCAN COFFEE COMPANY

CATCHING TARPON

The Gulf waters, off Port Aransas, Nueces county, Texas, have always been an ideal spot for tarpon fishing. It was near these waters that President Roosevelt fished for tarpon this spring.

There are few sports more exciting than deep-sea fishing and few fish which put up a braver, more spectacular

battle than the tarpon.

It's a beautiful sight when a tarpon is hooked. Six or 8 feet of shimmering body leaps from the water, twisting, squirming, trying to shake off that hook. The fish may leap as high as 10 feet.

When it comes down—be-ware! If the fisherman is wise, he'll be sure his boat isn't under that 300 or 400 pound fish. Many a novice has made the mistake of trying to reel in a tarpon too fast and has had the monster leap right into his lap!

CAVIAR

Caviar, one of the greatest food delicacies, is really sturgeon roe or eggs. One female sturgeon lays 3,000,000 eggs each season. Besides eating the sturgeon's flesh, both fresh and salted, man uses its air bladder as isinglass. Sturgeons live to be 200 and 300 years old. They may be from 2 to 30 feet long, weigh up to 2,000 pounds.

The woman saith unto him, I know that Messiah cometh, which is called Christ; when he is come he will tell us all things. Jesus saith unto her, I that speak unto thee am he. John 4:25-26.

HOUSEHOLD HELPS

MRS. MARGARET STUTE, Editor, Route 5, Box 179-B, Fort Worth, Texas.

BUSY WOMEN'S WORKBASKET

This Sly Puss Is Busy

You'll love this cunning kitten, who gives you such sly glances. She seems aware of the fact that her every move is being watched and is on her guard. There is a tea towel and a task for every day of the week, and you won't mind if the ironing waits on Tuesday while Miss Pussy admires her pretty self—for after all, kittens will be kittenish.

All seven designs and the pan holder Motiff come on a NUMO hot iron transfer, number C8154, for only 10c, and the designs are good for several stampings. Make a set for yourself and give the extra set for gifts. Your friends will like this kitten, too.

Address your letter for these designs, enclosing 10c to Southwest Magazine, Needlecraft Dept., Box 166, Kansas City, Mo.

ARE YOU PLANNING TO BUILD OR REMODEL?

As in spring the housewife's fancy turns to thoughts of clothes—so in autumn her thoughts turn to a new or a remodeled home.

"Well Planned Homes Viewed as Best Risks," was a headline featured in a recent daily newspaper. The article told how the FHA considered the modern, well-planned home one of the best risks on which to loan money. Authorities urged home-owners to plan carefully when building or remodeling.

Following are a few suggestions that will help should you contemplate building or remodeling your home—both from a standpoint of investment and for comfort.

The old saying, "if we save a thing for seven years it will come back into style," is about true of home furnishings. However, the style period most popular at the present time goes back almost ten times seven. The rambling old house of our grandfather's day (re-inforced with modern appliances of course) has been found so comfortable and yet so lovely in appearance, that it is again becoming a great favorite.

The bungalow will, no doubt, continue to be popular with very small families. Characteristic objections can be overcome by careful planning. By giving the bungalow type house a steeper and higher roof, you add to the appearance of the home and at the same time make it more comfortable. The addition of insulating material in the attic will further improve its livability the year around.

The two-story house today is frequently arranged so the family can live on one floor, if desired. However, where the household consists of five or more persons, the use of both floors will simplify housekeeping.

A large basement was desired by more than 84 per cent of 250,000 home-owners questioned in a poll conducted by a building magazine recently. Eighty-three per cent preferred a separate living and dining room. Air-conditioning was indicated as a chosen feature by 65 per cent. Eighty-two per cent desired a separate laundry room. The poll also disclosed that 54 per cent voted in favor of two or more baths—it appears that America is anxious to keep clean.

A recreation room for the whole family can be managed on a small budget, if plans are carefully made. One of the most delightful recreation rooms can be built in the basement. Any man who is handy with carpenter

tools can partition off sufficient space for a room by using two-by-fours and cheap wall board. Some owners also partition off a small space for the furnace, coal, storage, etc.; then finish the remaining portion of the basement for recreation. The walls and ceiling of the recreation room may be painted any desired color; ivory gives a lighter effect. When possible, it is well to use a composition floor over the cement. However, this is not necessary. Pleasing effects can be secured by the use of linoleum squares or washable rugs. While the proper lighting may be the most expensive item, yet it is surely the most important. See that the youngsters have plenty of the proper kind of light.

Furniture for the basement recreation room should include, at least, the following: Bookcases, a desk, a few handy tables, comfortable chair and a couch. Large wall maps are both attractive and useful.

When one must remodel, it is necessary to be content with substitutes for many modern improvements. Artificial tiling is a substitute which will prove to be most welcome to the household, and at the same time economical to use. There are many types of this artificial tiling, and most of them may be used successfully. As a rule, they can be nailed in place; this makes installation simple. The tiling comes in sheets large enough to require only a minimum of joints. Many sheets are scored with depth in which to place plaster, covering the nail heads and giving a more realistic appearance. All have finishes that are water-resistant, and most will stand a great deal of washing. Some have practically a life-time finish, while others must be re-enamelled at intervals. Although these imitations are not as desirable as the real tiling, they are much easier to install and the work causes very little trash or disorder in the room. They serve the purpose well, and present a neat appearance.

It is also well to remember that fall is the ideal time, in this part of the country, to do your painting. The weather is, for the most part, moderate with fewer rains and dust storms than in spring.

NOTE: Further hints on building and remodeling will be given from time to time on this page. Questions and suggestions are welcome. Address Mrs. Margaret Stute, Household Editor, Route 5, Box 179-B, Fort Worth, Texas.

ARE YOU SUPERSTITIOUS?

Are you one of those singular persons who has taken up the hobby of collecting "superstitions?" If you are, a careful study of their origin will broaden your knowledge and reveal the true nature of these beliefs.

Superstitions, no doubt, had their beginning with the advent of civilization, although they can be traced as far back as the dark ages. In almost every human being can be found some type of superstition—regardless of his or her education or belief.

These ideas to which we cling—either consciously or not—arise from many sources. Some grew out of religious ceremonies, others from philosophies, and many are natural outgrowths of fear or imagination. Many originated from pagan customs. Because of varying present day usages, the word, "superstition" is often vaguely applied, and is difficult to define; however, superstitions are generally divided into those of good or bad luck.

All over the world there are thousands of people who believe that to break a mirror is a sign of dire disaster, or at least seven years of bad luck. This belief originated with primitives who thought that the shadow or reflection of one's physical being was somehow part of the soul, and therefore to break this image was to destroy the soul, in part.

Others say that if your ears burn, it is a sign that some one is talking about you; or if your foot itches, you are going to walk on strange ground. Many are firm in their belief that if the palm of the hand itches, you will receive money.

Then we have the bride who believes she should wear "something old and something new, something borrowed and something blue." This superstition has become so universal that it is now a part of our wedding traditions and customs.

And did you know that the decorating of our homes with green at Christmas time is the outgrowth of an ancient practice connected with fertility? Or what is Halloween and its fun but invoking the supernatural on the

night when all spirits are supposed to roam abroad?

Even our greeting or congratulation by handshake is the modern indulgence in an old superstition concerning the right or lucky hand.

"Friday the 13th" idea as a day of ill-omen on which to start any work, and to exercise caution in every respect, goes back to the belief that work was taboo on religious days. This superstition is of comparatively recent origin.

Superstitions concerning numbers have a wide-spread following. In almost every form of gambling the players have faith in certain numbers or combination of numbers. They may attribute their confidence to numerology, astrology, personal experience or what have you, but the result is the same.

Once in a while we meet the fellow who vows he is free from any and all superstitions. But watch him closely and you will soon find that beneath all his outward bravado are, perhaps unknown to him, superstitions to which he pays tribute. Either he carefully avoids lighting three cigarettes on one match, or automatically avoids walking under a ladder. And usually he makes it a point to go as far as necessary to keep from crossing the path of a black cat.

Many persons in this enlightened age are handicapped by deep beliefs in many superstitions of bad luck. Certainly if you are expecting bad luck—and are on the lookout for it—you will be more likely to find it. On the other hand, a happy outlook on life often attracts happiness and good fortune; so there is little harm in enjoying good luck superstitions and charms. Just don't let the tail wag the dog.

As Job said thousands of years ago, "The things which I feared hath come upon me."

TASTY RECIPES

Appetite Teasers for the Harvest Season

With the youngsters trooping back to school, the family menu will need revamping and remodeling. Foods which will build brain and brawn and provide energy for the work to be done are necessary, yet the lingering heat of summer jades the appetite. Here are a few recipes that will tempt the most resistant "nibbler":

Ham With Orange

6 servings fried ham (1½ pounds)
2 tablespoons flour
2 cups orange juice
Parsley
2 or 3 oranges for slicing.
Fry ham. Add flour to 2 tablespoons of fat from frying pan, and cook until lightly browned. Add orange juice, stirring well to avoid lumps. Cook 5 minutes or until sauce is thick. Pour sauce around ham or serving dish. Garnish with parsley and orange slices.

Vegetable Salad Royale

2 cups Lipton's tea
2 tablespoons gelatin
½ cup beef bouillon
¼ cup lemon juice
1 green pepper, chopped fine
½ cup sugar

1 cup finely shredded cabbage or mixed vegetables

2 cups celery, cut in small pieces
Salt and paprika.

Soften gelatin in bouillon five minutes. Mix with freshly made tea that has been re-heated to boiling point after straining. Add vinegar, lemon juice, sugar and salt. Strain and cool. When it thickens, add remaining ingredients and pour in wet molds. Serve on lettuce with mayonnaise or salad dressing. Serves six.

Spicy Beet With Bacon Grill

1 package of lemon Jell-O
1 pint warm water
1 cup diced cooked beets
¾ cup diced apples
¼ cup prepared horse-radish
½ teaspoon scraped onion
1 teaspoon salt
¼ teaspoon caraway seed
1 tablespoon vinegar.
Dissolve Jell-O in warm water. Chill until slightly thickened. Combine remaining ingredients, and fold at once into slightly thickened Jell-O. Turn into individual molds. Chill until firm. (Continued top of column)

Makes 8 molds. Prepare luncheon plate of broiled bacon, toast points and a Jell-O mold, unmolded on crisp lettuce.

SNUFF-BOXES STAGE COME-BACK

General sneezing in London is now the tip-off that Britons are turning again to snuff. The custom, long frowned on in society, is making a strong come-back. It's common once more to see the snuffbox passed around after dinner.

Incidentally, the snuff-boxes themselves were one of the most interesting things about the habit of snuff-taking in its days of long ago. They were all sizes and shapes, made of almost every material under the sun.

Smokers today may take pride in ornamental cigarette cases, but they should see the snuffboxes of old. Rich men had boxes studded with diamonds. Almost all expensive cases were either gold or gold-trimmed.

Dandies had ivory boxes on which were painted miniature pictures of their current favorites among the ladies.

FREAKISH EARTHQUAKES

An earthquake has resulted in a new real estate development in New Zealand. Six years ago, a quake partially destroyed Napier, but half-way compensated for the loss by raising the bottom of the city's harbor above high water. Now building has begun on the new land.

Quakes often perform such queer stunts. In 1892, one shook Japan. When it was over, a wall of earth 20 feet high ran for 70 miles across one of the islands.

Then, there is the havoc tremors play with cables laid on ocean floors. Atlantic cables off Newfoundland have several times been broken when quakes raised or lowered the ocean floor. However, the cable under the Mediterranean between Sicily and the Lipari Islands has been broken five times in the same place by earthquakes.

TENT WAR ON CATERPILLARS

Farmers of Ontario, Canada, are preparing their torches to war on tent caterpillars again. These caterpillars live in webs or "tents" spun between the branches of trees, sally forth when hungry and devastate foliage.

Best weapon with which to fight them is fire. So, when it's a tent caterpillar year, farmers tie kerosene-soaked rags to sticks, light the cloths and burn up the "tents."

However the pests are so numerous they all can't be destroyed in this manner. So it's fortunate that they ap-

Get Stations You Never Heard Before! AMAZING

Distance Booster

BOOSTS YOUR RADIO PLEASURE

\$29.95

F. O. B. CAMDEN, N. J.

WITHOUT BATTERY
RCA Victor also presents a complete line of new AC radios for homes having electric power.

RCA Victor
BATTERY { 2-volt 6-volt } AND ELECTRIC SETS

Low-priced 1938 RCA Victor Farm Radios offer more stations, greater power, finer tone!

There are more than 50 outstanding performance features in the new RCA Victor 1938 farm radios! All mean extra quality for you—extra value! Leader of these fine features is the thrilling new "Distance Booster," which enables you to tune in more stations than ever before... gives you greater distance, greater volume, finer tone! With this sensational new development, RCA Victor Farm Radios rival the performance of power line radios. Not only do these beautiful new RCA Victor Farm Radios provide a new high in battery set performance—but they're amazingly low in cost, too. They work with either wind charger or gasoline motor generators... and greatly lowered battery drain makes them cost less to operate!

Get the facts today. Find out about this complete new radio line. The free catalog gives full details. Mail coupon NOW!

TEXAS FARM NEWS REPORTS

Two Alberta peaches weighing 12 and 11 ounces each were grown on a farm near Taylor (Williamson county).

Harvesting of rice in the Eagle Lake area showed the crop fairly good. Rice men estimate an average yield of 14 barrels per acre.

A bumper crop of fine South American yellow popcorn will be shipped from San Patricio and Refugio counties.

A twin watermelon, weighing approximately 70 pounds, was grown near Hargill. The melon, a Tom Watson, had only one stem, and was marked by a wide crease down the middle.

Prospects are very bright for the largest fig season at Highlands, near Houston, in years, according to reports of present growth of the trees.

Airtight containers are being used for the first time to market the Valley lemon crop this season. This new departure in citrus fruit sales holds six to eight lemons.

A recent sale of 100,000 pounds of Irish potatoes by a Brown county farmer was one of the largest transactions of this kind in the county's history.

A freak narcissus bulb was dug up by a Mount Pleasant resident; in the bulb an acorn had sprouted and from the acorn a small oak tree had grown. Neither tree nor bulb suffered injury during the growth.

All farmers should keep a systematic set of books on their daily farm operations, according to A. F. Knebel, who owns a 320-acre farm three miles north of Waller (Waller county). Mr. Knebel has been keeping such record for 29 years, and believes it pays dividends. His books provide an accurate statement of what he did on each day during the 29 years.

From one acre of tomatoes, C. L. Wilbanks harvested and sold more than \$136 worth of green tomatoes, according to the county agricultural agent. Wilbanks placed this crop on fourth year land and used 600 pounds of commercial fertilizer. He thinks that ridging his rows high during the growth of the plants contributed greatly to his good yield.

Terraces that were built the "syrup pan" method on the Lynn Jones ranch in Uvalde county have eliminated gullies during rains. Jones reported to his county agricultural agent that as this field had water running into it from three sides it was a hard proposition to control. Now the terraces distribute the water slowly over the field and out at the other end without washing.

Among more recent innovations in the war on insects is a device for electrocution of flies. Exhibited by engineers from A. & M. College, the gadget is designed to rid farmers in general and dairymen in particular of this pest. It is a box two by three feet with a light inside. Flies are attracted to the light, brush against charged wires, and are electrocuted. The invention costs \$18. A test of the new device destroyed six gallons of flies in four days.

FARMS FOR SALE

One of the best watermelon fields in South Texas is claimed by Noa Lyles, Grimes county farmer, who has thirty acres in Blue Watson melons that he believes will make 500 melons an acre. Each melon is expected to average 35 pounds.

Finley Coughran, of Callahan county, realized an average of \$100 per acre from his Irish potato crop which when harvested amounted to 9,000 pounds from 1 1/4 acres. He plans to grow a fall crop, and has laid off his garden with the farm level, giving proper fall to rows.

A new kind of peach, the "Fair Beauty," was grown extensively this season in Smith county. It is said to be better eating than the Alberta and 30 days earlier. This new peach, it is claimed, can be shipped to market between 75 and 85 days after the trees have bloomed.

Starr county's first irrigation project, built by a group of 4-H club members, has just completed its first year of successful operation. The youths dug a main canal more than a mile in length by hand-labor, installed a cheap pump and irrigated 123 acres of land.

Pre-season predictions indicate a heavy peanut crop yield for South Texas. Based on last year's supply, an estimated 240,000 pounds of the nuts daily will pass through three mills which shell and grade them.

Twin trench silos have been built on the W. J. Vollmer dairy farm of Bexar county under the supervision of the county agricultural agent. The silos were constructed out of what used to be an old gravel pit and the cost of construction is estimated to be one-fourth of the amount necessary to build them on level ground. The estimated tonnage is 300 each, or a total of 600 tons. Vollmer has approximately 200 head of dairy cattle to utilize the silage.

An 808-pound bale of cotton established a record for the largest first bale in the 64-year history of Rockdale, Milam county. The bale classed as mid-dling 31-32.

A Garber pear tree, grown in Hallettsville, (Lavaca county), produced a limb with 33 pears on it this season. The same orchard included a peach tree branch measuring 12 inches with 18 peaches thereon.

"If your closet is dark and you have difficulty seeing in it, try painting or papering the inside of it white or some very pale color," Elsie Barker told members of the San Gabriel 4-H club in Milam county. "I have no difficulty at all in locating the garments I want in my closet since I covered the dark walls with white paper and the doors with ivory enamel."

The Texas fig industry could be expanded by a careful selection of setting stock such as in areas now producing the fruit commercially, believes the State Department of Agriculture. Commercial production includes the Magnolia fig, which is especially suitable for canning. The Smyrna fig is also grown in San Antonio's territory.

The Texas Experiment Station urges care in the use of dust mixtures, particularly those mixtures containing excessive amount of water soluble arsenic, and recommends that as much as 25% white arsenic mixed with lime meets almost every requirement of an efficient poison. Tests at the experiment station have shown that stronger mixtures will burn plants under some conditions, and growers are warned against them.

An unusual chicken killing was discovered by an Archer City resident, after finding one after another of her chickens dead with no mark on body except punctured comb. A horned frog was caught leaping on the birds and sucking their blood, vampire fashion.

Bur clover is being used by a Burlington (Milam county) farmer to increase the carrying capacity of bermuda grass pasture. Bur clover, he states, makes a good supplement to bermuda because the clover makes growth during winter and spring when bermuda is dormant. The additional months of grazing will add to the variety of feed. It is locally adapted to the climate and soil of Central Texas.

"My bees have more than paid for themselves and all equipment during the first year," says Mrs. G. W. Robbins of the Everman home demonstration club in Tarrant county. Mrs. Robbins bought 10 hives of bees last year for \$50 and they have increased until she now has 15 hives. She has sold 20 gallons of honey from six of the hives and expects to get more than 100 gallons before the end of the season.

About 40,000 Texas-bred mules have been shipped to the southeastern and Mississippi Valley cotton areas during the past 12 months, according to the executive committee of the Texas Horse, Jack and Mule Breeders' Association. Texas ranks third in the number of registered jacks. Because 98% of the mules in the State are more than 2 years old, replacement demand will be heavy for a number of years, thinks the committee, especially in view of the fact that a large proportion of the animals are 5 to 20 years old.

Mrs. C. W. Strode, co-operator of the Appleby home demonstration club in Nacogdoches county, has been robbing her ducks of their down. She explains it—"to make them cooler now and make me warmer next winter." Mrs. Strode says that by late fall she will have enough of the down to make two comforts.

By terracing his wheat land, Ed Holmes, of Floyd county, harvested six more bushels of wheat per acre than his neighbors, says his county agent. Forty-foot wide terraces did not hinder the operation of combining during harvest. Holmes has had his row crops terraced since 1930 and is a firm believer in terracing.

One of the largest pine trees in Texas was cut near the Neches river in Houston county, in the Davy Crockett unit of the Texas national forest. Measurements by Federal foresters revealed that the tree was almost 5 feet in diameter, 140 feet high, and estimated 157 years old. Five logs, totaling 82 feet, were cut from it. These scaled to a net volume of 6,290 board feet.

When rain doesn't fall, Grandfather Trumble gets water from the ground. That explains the flourishing condition of the garden of his son and daughter-in-law, Mr. and Mrs. H. S. Trumble, of Jefferson county. In spite of the dry weather, the garden daily is yielding large quantities of vegetables for the table. Near the garden patch is a shallow well from which Grandfather Trumble—comfortably seated in a chair—pumps water which flows through a wooden trough to the long rows of beans, tomatoes and other vegetables. Mrs. Trumble devised this method of watering her garden while serving as food demonstrator for the Pear Ridge home demonstration club.

"Inoculation of all beans and blackeyed peas that I planted this year made them produce many more peas and beans than uninoculated ones planted in previous years," Mrs. F. G. Wallis, of Cooke county, told her county home demonstration agent.

DeWitt county growers are preparing approximately 200,000 young turkeys for the fall market, and are not discouraged with rumors that prices will be below the 1936 average. Growers have been cutting down on cost of raising the birds by feeding them early corn and ranging the turkeys where they can feed on grasshoppers and insects.

The farm chemurgic plan has been adopted by some Texas cotton growers to combat the dwindling foreign trade in cotton. The remedy is said to be in finding new uses for cotton and in developing new and better varieties. A chemurgic council would aim at finding these things by applying scientific and industrial knowledge to agriculture's problems.

More convenient and less expensive than some commercial ant powders is the United States government's formula for killing common house ants, which reads: 1 quart water; 1 1/2 cups sugar and 120 grains arsenate of soda. Heat water and sugar and boil to thin syrup, then add soda crystals and dissolve. Keep in tightly covered jar and use as needed in saucers or tin tops. Use flat containers if possible, then add broom straws so ants can get into dish.

By storing their 1937 Irish potato crop from digging-time until now, two Erath county growers cashed in on the crop for \$1.35 per 100 pounds. At the time the potatoes were stored, the price was only 75c per 100 pounds. A total of 1,074 sacks containing 100 pounds each were stored in Fort Worth and Stephenville.

Papaya fruit is being grown for food by Mrs. C. L. Jones, of Brownsville. It is reported rich in pepsin, and healthful. A new hard-shelled variety has been produced, which can be shipped to distant points, and promises to bring the plant into commercial use. The papaya has the appearance of a yellow cantaloupe and grows on trees which sometimes attain the height of a palm.

Texas wool production will increase more than 17 percent to a total of 75,538,000 pounds before the year is out, is the estimate of the crop and livestock division of the Department of Agriculture. Average weight per fleece is slightly lower, however, 8 pounds as compared to 8.2 pounds in 1936. Expectation this year is that 9,390,000 sheep will be shorn compared to 7,790,000 last year. This gives Texas more than twice as many sheep as the next nearest State, Wyoming. Montana ranks third and California fourth.

What some of America's aquatic stars say about Camels

SPRINGBOARD ACE. Lovely Jane Fauntz Manske, of Chicago, says: "It's Camels for me! Good digestion is of prime importance to me. Tense competition and all the changes of diet when traveling are liable to upset digestion. But I smoke Camels at mealtimes and after and my digestion runs smoothly."
The best of meals tastes better and digests easier when you have an abundant flow of digestive fluids—alkaline digestive fluids. Smoking Camels encourages this flow—helps you enjoy a sense of well-being. Steady smokers say: "Camels set me right!"

HAROLD ("DUTCH") SMITH, Olympic diving champion, would "walk a mile for a Camel!" "I find a great deal of pleasure in Camels," says "Dutch." "I long ago discovered that smoking a Camel restores my flow of energy after a strenuous meet—gives an invigorating 'lift.'"

THREE-TIME OLYMPIC WINNER in the high-diving event, Dorothy Poynton Hill, of Los Angeles—a steady Camel smoker—says: "I prefer Camels because they don't get on my nerves. And they have such a rich, delicate flavor and never tire my taste."

"PETE" DESJARDINS—another famous diver—speaking: "Divers like a mild cigarette that doesn't upset their nerves. That's why I prefer to smoke Camels."

ENJOY BENNY GOODMAN'S SWING BAND FOR A FULL HALF-HOUR!
Tune in Benny's popular swingsters—hear his famous trio and quartette. Tuesdays—8:30 pm E. S. T. (9:30 pm E. D. S. T.), 7:30 pm C. S. T., 6:30 pm M. S. T., 5:30 pm P. S. T., over WABC-Columbia Network.

AQUAPLANE EXPERT. Miss Gloria Wheeden can do hand-stands on an aquaplane. Lunching on the speed boat, she says: "I get so much benefit smoking Camels at meals."

MILLIONS MORE FOR COSTLIER TOBACCOS
Camels are made from finer, MORE EXPENSIVE TOBACCOS... Turkish and Domestic... than any other popular brand

For Digestion's sake... Smoke Camels!

Our Boys and Girls

AUNT MARY, Editor, Route 5, Box 179-B, Fort Worth, Texas.

THE BEGINNING

DEAR FRIENDS:

Once again, young folks, you come to the "beginning" of another milestone in your lives. This month some of you will pass through school doors for the first time. Some for the last time, if it be your graduation year. But whatever grade you enter, it is a "beginning."

We read in the Good Book, "In the beginning God divided the light from the dark." This was the first act of Him who rules the universe. It was the first big step in the creation of a world. Since that time God, through his servants, mankind, has been dividing light from darkness. All knowledge of good things is "light." All knowledge of evil things is "darkness." Every school child eventually knows if it were not for the light of the sun there would be no life upon earth. So it is with the human mind—if there be no light of knowledge, there can be no mental growth or development. As the leaves and branches of the tender plant are sustained by the light of the sun, so should our desire for knowledge sustain us and cause us to learn more about material and spiritual things.

In looking over the scholastic reports of Texas schools, I am proud to see the progress made by our Texas school system. I have been informed that our sister State, Oklahoma, has made similar progress. However, much remains to be done before our public school system attains that efficiency which modern conditions require. Prominent educators have suggested that young men and women should find a large field for work in the branches of higher education.

I am depending on the boys and girls who are readers of this page and members of our club to set some real school records this coming year. I feel sure I shall not be disappointed.

We hope that the fall months will bring a great many new members into the D. Y. B. Club. We need everyone of you. JOIN US NOW!

With best wishes of club members, including myself, I am "signing off" until October. Until then, I beg to remain your devoted,

AUNT MARY,

Route 5, Box 179-B, Fort Worth, Texas.

D. Y. B. CLUB NEWS

This month has shown the largest new member gain in the history of our club. ONE HUNDRED AND THIRTY-SEVEN new members have been added to our club roll. I am sure this news will be received enthusiastically by club members all over the country. I wish to thank all of you for sending in so many new memberships.

Special Award

The special award of ONE DOLLAR is given to:

Willie Esther Hager, Madisonville, Texas. We congratulate Willie Esther on her good work. For a long time one of our most faithful members, she well deserves the award. A boy member sent in the most names, but he failed to observe one of the most important rules—that is, to have each new member sign his or her own name and address. It is important to read the rules carefully, and to carry them out faithfully. They are always given for a purpose. When you fail to observe even one rule in either special award competition, or in one of our contests, it eliminates your entry. Please do not forget this when entering future contests for awards.

Club Letters

We have a limited space for letters this month, so we will just look over the first ones open.

Miss Dorothy Mitchell, Plano, Texas, writes: "I enjoy the column, 'OUR BOYS AND GIRLS' very much. I believe you help to make life interesting for the Shut-Ins and other people, too. I like the contests you have because they give new topics to write and think about. Even if there were no prizes, we would still benefit by the experience in writing upon various themes. The subjects give us something to work on, which in turn gives us greater knowledge. I thank you for these things."

Thanks to you, Dorothy, for your lovely letter; you certainly write a splendid hand.

Mrs. Grace Burroughs, Sheldon, Texas, says: "I have been intending to write and thank you for the splendid chat in the June issue. I liked it so well I passed it on to my son in Houston. I am proud that our club is reaching out and helping so many in so many different ways. Why not print the birthdays of our Shut-Ins, and then let us send them a shower—even if it is nothing more than a picture postcard or a letter?"

I think Mrs. Burroughs' suggestion is fine. We will try it soon. She also has sent me some interesting original stories that I am going to publish later on this page.

There is a very nice letter from our dear friend and Shut-In, Beulah Lamb, Hazel, Ky. It reads, "Thank you for your letter. Letters mean so much to sister and me. I do pray that the kind Father will each day bless and be with you. Here is a thought for the day:

"Lord give me thoughtfulness
For those oppressed by care;
And give me generosity
My life's good things to share.
Lord make me patient
When some one's faults appear;
And strengthen me in charity
When slanderers are near.
Lord give me love
From out thy boundless store,
That I may care to help
And inspire others more."

"Again, kind heart, I assure you that I am grateful for your interest. God be ever near to bless you, is my heart's desire and prayer." We acknowledge with thanks nice letters

Let's Draw

Upon the paper smooth and white

Let's draw in joyous rhyme

Our greetings for the coming year

Ding! dong! the glad bells chime

from: Janet Griffin, Hebron, Texas; Mrs. M. C. Duncan, Fairy, Texas; Mrs. Beckie Zeigler, Lansdale, Pa.; Mrs. J. F. Dillard, Big Foot, Texas, and others.

We note with regret that Willie Esther Hager's, Madisonville, Texas, home was destroyed by fire. She asks that any who may have interesting material for scrap-books to please send them to her. Her scrap-book was lost in the fire. Our sympathy to Willie Esther and her family.

WONDERS FROM THE PAST

Mystery of the Easter Island Images

During the past ten years men have made many discoveries that have thrown a great deal of light on ancient history. Most of these discoveries have verified, to a marked degree, numerous Old Testament Bible stories. Interesting points of dispute between Bible students and students of secular history are now being cleared up, and the truth actually known. During the next few months we are going to tell you some of the most recent findings as reported in "Wonders of the Past," published by Wise and Co., New York. Here is one of them:

Far away in the bright blue water of the south Pacific lies Easter Island—the home of a mysterious phase of human culture.

The inhabitants, of whom about 250 still survive, live in a settlement at Mataveri, at the western end of the island. They are members of the Polynesian race, and speak a dialect akin to that of the Tahitians. The fact that their skins vary in color from light cream to dark brown, points to a successive wave of immigration—a fact borne out by legend. Whatever their origin, these

strange people have developed crafts and arts that differ from the culture of any other part of the world. Their system of writing, developed by a guild of learned men—none of whom survive today to tell its secret—is unique. The curious series of emaciated ancestor figures found on the island, beautifully carved from a variety of mimosa wood which still grows there, is entirely distinct. The same can be said of the "lizard" carvings and the ceremonial paddles which are eagerly sought by international souvenir collectors. The strangest and rarest of all are the huge bizarre statues of stone which these people quarried, carved and set up in extraordinary numbers.

The islanders possessed no metal; their tools were crude, weak implements of volcanic glass and rock.

Life on the island has been extremely difficult, since it was necessary to depend on the productivity of this one island alone. The only food available came from crops which could be cultivated on land, or wild animals, which could be snared in wooded sections. Yet the people must have possessed a great deal of energy to enable them to cut away blocks of stone sometimes more than 30 feet in length and weighing, in some instances, over 50 tons. We can only guess by what means these great masses of rock were moved over the broken country to be set at last by the sea-side; it must have been a stupendous task. Many of the great statues thus erected were to mark the limits of clan territories, or upon long stone terraces to indicate burial places.

The statues set upon these burial platforms were large hats or crowns of red tufa, quarried from the slopes of Punapau. These hats, five to eight feet in diameter, were transported to various points over the island from one quarry, to be placed by some ingenious device upon the heads of figures 20 to 30 feet in height. The meaning of these singular ornaments is unknown. When the first European explorers chanced upon this out-of-the-way island, on Easter Day in the year 1722, after a voyage in a Dutch ship commanded by Admiral Roggeveen, they were astonished to see the coast fringed with crimson-hatted statues, standing with their backs to the sea.

Rows of gigantic busts stand looking into the extinct crater of Raraku; scores of others were set up on the mountain slopes, and the main roads of the island were lined with these figures.

When this strange sculptural era began or when it ended, as well as accurate historical data concerning this almost lost race, is still one of the great mysteries of civilization.

During the eighteenth century only a few ships visited the island. Each, however, reported the existence of the statues and their many strange features.

In the first years of the nineteenth century, American seamen, lacking hands for their sailing vessels, began to seize the unfortunate natives. Then about 1860, raiding expeditions seeking laborers for the Peruvian guano fields, took away something like a thousand islanders. Among the captured slaves were the last of the learned men of the race who could read the peculiar script of the island. At the insistence of the French missionaries, the remnant of the guano slaves were returned; but they carried small-pox with them, (Continued top next column)

from which disease the unhappy islanders suffered greatly.

Today the most striking evidence of the mysterious culture of Easter Island is found on the inner and outer slopes of the Raraku volcano, where scores of statues stand in a perfect state of preservation. All about are large quantities of stone and obsidian chisels flung down by the prehistoric artists and abandoned forever in what seemed an answer to a sudden call.

Next month: "Jericho's Walls." Read the account of this story in your Bible.

Shut-In List for September

Here are the names and addresses of Shut-Ins we hope to remember this month:

Mrs. P. C. Kelton, Sr., Route 2, Madisonville, Texas, Age 80.
Mrs. Jim Caldwell, Route 2, Madisonville, Texas, Age 75.
Charley Baze, Spencerville, Okla. Age 16.

Beulah Lamb, Hazel, Kentucky.
Mrs. Stella Lacy, 425 Yale St., Houston, Texas, Age 67.
Mrs. Susan F. Hughes, 1804 25th St., Galveston, Texas.
Mrs. W. T. Douer, Leo, Texas, Age 61.

LANDING SEAPLANES HAZARDOUS

A huge flying boat is approaching port. Lower and lower it skims. A final dip and the hull smoothly nestles in the water and the ship taxis to dock.

To an observer, it's just another landing. Nothing to get excited about. It may be the same to the pilot, but chances are it isn't. To him it's a nerve-racking job well done. For landing in the water is no cinch, even for a seaplane pilot of years of flying experience.

Many a student pilot gets chills and fever thinking of bringing his plane down on a smooth concrete runway. That's the most difficult part of learning to fly, of course, but landing a plane on water is so much harder there's little comparison between the two.

This fact recently hit Britain's Imperial Airways smack between the eyes. Two of its giant flying boats crashed into the Mediter-

nean. One tried to land in stormy seas, capsized. The other was forced down by lack of fuel, and the pilot, with no motors to aid him, came in "ker-splash."

Why is landing on the water so difficult? Well to begin with, there's the matter of judging how far above the surface one is. This is harder to do when landing a seaplane, probably because of the reflections on the water. However, there's a greater bug-a-boo.

Suppose a pilot has been flying land planes for years, then tries to land a seaplane. He's probably been in the habit of bringing his plane down, then stalling it just before the wheels touch. It drops to a perfect three-point landing.

If he tries that with a seaplane, he might come out all right, then again, he might not. A seaplane hull is a fragile thing. A drop from too great a height is going to shatter that hull.

But let's say our pilot doesn't stall his ship. He's such shrewd judge of distance he can level a land craft off and fly its wheels right onto the ground. He won't have any trouble landing a flying boat—if he remembers one thing. Whereas he can fly a land plane in at several angles, only one will do for a seaplane. If he hits the water too speedy, he goes under like a high diver.

If landing on water is so hard, why aren't there more accidents? Because both Pan-American Airways and Imperial Airways, probably the world's largest users of commercial flying boats, send new pilots to school, regardless of experience.

Yet, despite such careful preparation, accidents still happen. The Imperial pilots who cracked up in the Mediterranean were not novices. Neither was the Pan-American pilot who smacked the water too hard at Trinidad a

year and a half ago. That crash injured five.

So, as we've said, seaplane landings are still hazardous, even for experienced airmen. However, if something does happen when a plane touches water, it isn't always the pilot's fault. The hull may be ripped on a submerged tree stump.

There is another danger. Some people just can't seem to realize that a speeding plane means for them to keep clear. A few months ago, a P. A. A. pilot had to swerve to keep from hitting a small boat which chugged directly in the plane's path.

The flying boat upset, one person was killed. But for the pilot's skill, the toll would have been much greater. The danger of boats getting in a plane's way is always so great that Imperial Airways not long ago was forced to begin policing the channel where its ships land at Singapore.

Besides the difficult technique of landing flying boats and the danger of hitting water craft, there is always the hazard presented by rough water. Pan-American is still thanking a benevolent Nature for providing calm lagoons, shielded from the ocean, on Midway and Wake Islands.

All told, there are so many things that signal danger in landing seaplanes that the

wonder of it is that there are not more crashes.

It is certainly a tribute to the skill of Pan-American's pilots that that line has killed but one passenger in just about ten years of flying.

GOLD OF THE PAST

Gold mines 3,000 years old have been found in Russia. Soviet scientists discovered the ancient shafts near the Aral Sea. And wonder of wonders there was still plenty of the precious metal left in them.

Whether those are the world's oldest gold mines is debatable. The history of man goes further back than that, and gold was the first metal mined. Laboriously man scooped out holes in the earth with stone tools and treasured the little gold metal he got.

Keeps them out in front...this
FRIENDLY STIMULATION

JOANNA DE TUSCAN, American fencing champion, says, "After a long tiring bout, a cup of Maxwell House Coffee is just the thing to put you back on your feet!"

THE PRESSES ROLL! JOE WILLIAMS, dynamic sports editor of the New York World-Telegram, is one of the men who keeps them rolling! "That friendly stimulation is page 1 stuff with me, too!" says Joe. "And let me add that of all the coffees I've ever tasted—and I've tasted plenty—that rich, mellow Maxwell House flavor wins the blue ribbon hands down!"

SOMETHING TO REMEMBER—ALWAYS!

REMEMBER this when you buy your next pound of coffee: If you can smell that tempting coffee aroma, it means that the container is not protecting the coffee properly. It is permitting flavor to escape. You never smell the fragrant aroma of Maxwell House until you open the can. For Maxwell House is packed in the super-vacuum Vita-Fresh can you open with a key. And this is the only way science knows to bring you coffee without loss of flavor—coffee always roaster-fresh.

TUNE IN! Maxwell House Hour... music, drama, fun... every Thursday night, over the N.B.C. Coast-to-Coast Network.

MAXWELL HOUSE COFFEE

Book Keeper
"My papa's a bookkeeper," said little Albert, proudly.
"Yes, I know he is," replied little Dorothy. "He borrowed one from my papa and kept it."

Such Extravagance
"This younger generation!" barked the art editor one morning. "My boy asked me for a nickel to see a boa constrictor in a side show! Such extravagance! I gave him a magnifying glass and told him to go find himself a worm!"

Selling
"To sell goods," said the salesman, "you must be a psychologist; you must be a psychic. Now I am a psychic. I can read the minds of men I call on; for instance, I know what's on your mind right now."
"Well, then," replied the victim, "why in h—l don't you get out of here?"

Bootlegger Jake
Oh, drop a tear for Bootlegger Jake.
Fate sure did treat him cruel.
He perished by a dire mistake,
He drank his own white muel.

Knew What He Wanted
A negro came into a drug store and walked up to a clerk.
"Ah wants one dem plasters what you stick on yoah back," "I understand," said the clerk, "you mean one of our porous plasters?"
"Naw, sah, I doan wants none of yoah poorest plasters, I wants one of yoah good plasters."

Something Else on Their Minds
First Motor Cop—"Did you get that fellow's number?"
Second Motor Cop—"No, he was too fast for me. That was a mighty pretty girl he had in the back seat, wasn't it?"
First Motor Cop—"It sure was! She smiled at me; did she smile at you?"
Second Motor Cop—"I'll say she did. She even waved me a kiss."

A LITTLE FUN Jokes to Make You Laugh

Watery Milk
Housewife: "About the milk you deliver here."
Milkman: "Yes, madam!"
Housewife: "I just wanted you to know that we use it for drinking and not for bathing."

Great Future
Wife: "John, you'll have to take that ball away from the baby. He threw it and hit sister right on the head."
Husband—baseball fan: "Yes, I saw it, and did you notice the curve he threw?"

Quite Surprised
"I suppose you'd be surprised if I gave you a check for a birthday present, George?" said Mrs. Robinson.
"Yes, indeed," replied her husband.
"Well, here it is—all made out and ready for you to sign."

"Brooklyn Joe"
"Brooklyn Joe" Roddy, 77 years old, said to be the oldest tramp printer in the country, visited Texas recently and presented his card to printers in various newspaper shops. On the back of his card was the slogan: "All men are liars, except you and me, and I sometimes have my doubts about you."

All Depends
"How old are you, sonny?"
"That's hard to say, sir. According to my latest school tests, I have a psychological age of 11 and a moral age of 10. Anatomically, I'm 7; mentally, I'm 9. But I suppose you refer to my chronological age. That's 8—but nobody pays any attention to that these days!"

Politeness
Natives of the Carolinas are noted for their politeness. In the old days when people traveled mostly on railroad trains, a passenger was enjoying a smoke in the smoking car. From time to time he expectorated with great satisfaction out of the open window.
The rush of air caused by the fast-moving train must have interfered with his aim, for a tall, lean Carolinian in the seat just back of him touched him lightly on the shoulder and remarked with great politeness: "Mistah, you done spit on me foh times an' I ain't said nothin' 'bout it. I wouldn't say nothin' 'bout it now, 'cept I got on my Sunday suit of clothes."

Some Recommendation
Bald Customer: "You say you can recommend this hair restorer?"
Barber: "Yes, sir. I know a man who removed the cork from the bottle, smelled its contents and within twenty-four hours he had a moustache."

Still More Money Than Brains
"There was a time when people used to say I had more money than brains. They can't say that any more."
"Why not?"
"Because I'm down to my last dime."
"Well, what of it; you still got more money than brains."

Long Distance Infection
Doctor (in Boston)—"You have a light attack of broncho-pneumonia."
Cactus Joe (from Arizona)—"Now ain't that tough luck. I been ridin' broncos all my life an' never ketched a thing from 'em until I come back East."

Usual Covering
A caller at the home where there had been bereavement, was left alone with the small boy of the family for a little while.
"And was your grandpa covered by insurance?" asked the caller.
"No'm," replied the boy, "he jest had on a night shirt."

Artemus Ward Humor
Artemus Ward, one of America's greatest humorists in the horse and buggy days, liked to joke about Utah. At that period Utah was practicing polygamy, which furnished Ward with a rich field for his brand of humor. "Their religion," he said, "is singular but their wives are plural." He described Brigham Young as an "indulgent father and a numerous husband who loved not wisely but too many well." His quip that "pretty girls in Utah marry Young," was selected by Josh Billings as Ward's best joke, but Eli Perkins, another humorist, liked best the one in which Ward said he was bound to live within his means if he had to borrow money to do it. Another American humorist liked best the joke about Ward being ready to sacrifice every one of his wife's relatives on the altar of his country.

Doctor Quack
Stern was the glance the coroner cast at the quack doctor who had just taken the stand to testify regarding the sudden death of one of his patients. "When

"MAKIN'S" SMOKERS HERE STEAL THE SHOW ON ROLLING!

They Win Both Ways—
On Fast, Neat Rolling and
Mild, Tasty Smokes

IT'S great stuff when "makin's" tobacco rolls up so quick and neat as Prince Albert. And then when it smokes so downright mild and tasty, too—it's something to cheer about! No wonder most everybody 'round here rolls P. A. It's "crimp cut." Smokes mild, smooth, and mighty satisfyin'. (And say—you'll find Prince Albert great in pipes, too!)

"I SEE you're rolling yours with Prince Albert," says the gent perched up on the baggage truck down by the station. "Bout time you got onto that good P. A. tobacco. I've been telling you a long time about its swell, rich taste."

"ALL RIGHT, a-l-l-right," says the fellow on the left, "I'm willing to admit I wasted a lot of time before I took up Prince Albert. I never thought any 'makin's' tobacco could draw so easy and smoke so slow and cool as P. A."

PRINCE ALBERT THE NATIONAL JOY SMOKE

70 fine roll-your-own cigarettes in every 2-ounce tin of Prince Albert

Fight Lice and Mites

Nothing saps the strength of chickens, either old or young, so much as a bad infestation of lice or mites, or both. Usually, growing stock that is kept away from the hens are not affected by these pests to the extent that the old birds are. Nevertheless they may be affected, so it is always a wise plan to catch up and examine any birds that have a droopy appearance. If lice are present, these droopy birds will show them in large quantities or an inspection of the roosts in the range shelter or the range house may show the presence of mites. The same is true for the adult birds. Lice remain on the birds all the time and do their damage by chewing the skin and feathers, while mites remain on the roosts, dropping boards, or in the nests during the day and attack the birds at night, injuring them by sucking the blood. Since these pests breed more prolifically in the summer time, it is a good plan to give both lice and mite treatment several times during the summer in the case of the old hens and, when needed, to the young stock on range. The new birds should by all means be protected against these pests by giving the treatment for lice and mites when the

new pullets are brought into the laying houses.

Government Issues Turkey Report

Either the consumption of turkeys must be increased or production reduced if producers and the trade are to make a fair profit, is the net of a report issued recently by the Bureau of Agricultural Economics, U. S. Department of Agriculture.
The report is the result of a nation-wide study of the turkey industry made by a special committee composed of Department representatives.
The report reviews the rapid expansion of the turkey industry since 1930, resulting from the application of newer methods of disease control, a better knowledge of nutrition, and the development of the commercial hatching of turkeys.
Expansion of consumer demand for turkeys over the next several years, according to this report, appears possible, through such developments as making fresh-killed turkeys available over a longer period of time than merely the holiday seasons; through the production of small-type turkeys; the preparation and marketing of full drawn "ready-to-cook" turkeys; the preparation and marketing of dressed half turkeys and parts of turkeys "ready-to-cook;" the production of canned turkey products; further improvement of quality through grading, and timely advertising.

THE HOLD-UP IN THE KALOMO CAVERNS

MELVIN PURVIS FORMER ACE G-MAN WANTS YOU TO JOIN HIS NEW 1937 CORPS OF SECRET OPERATORS
MELVIN PURVIS, former Ace G-Man, who founded the Junior G-Man Corps, has formed a great new organization called Melvin Purvis' Law-and-Order Patrol. Members are called Secret Operators. They have special codes, passwords, and special equipment. Here is one of the many adventures taken from the confidential Secret Operator's Files and published to prove that CRIME DOES NOT PAY!

Melvin Purvis, on a vacation, is visiting two of his Secret Operators, Sally and Sam, who live near the famous Kalomo Caverns.
WHEN WE FINISH THESE POST TOASTIES, LET'S GO ON A TOUR OF THE KALOMO CAVERNS... I'VE ALWAYS WANTED TO SEE THEM.
THAT'S GREAT, MR. PURVIS.

Meanwhile—as the wealthy Pierpont party of tourists is going through the Kalomo Caverns...

REACH FOR THE ROOF EVERYBODY! THIS IS A HOLD-UP!
MELVIN PURVIS! IF HE HADN'T SHOWED UP, WE COULD'VE SLIPPED OUT SOON'S IT GOT DARK!

At the entrance to the huge Caverns, Purvis learns of the hold-up.

I'M MIGHTY GLAD YOU SHOWED UP, MR. PURVIS. THOSE CROOKS GOT \$5000 FROM US!
MAYBE YOU CAN HELP US CAPTURE THAT GANG, AS LONG AS THEY'RE IN THERE, WE DON'T DARE TAKE ANY MORE PARTIES OF TOURISTS THROUGH.
H.M. LET'S SEE WHERE THE HOLD-UP TOOK PLACE.

ONE GOOD THING—THEY CAN'T GET OUT. WE'VE GOT THE ENTRANCE BLOCKED.
DON'T BE TOO SURE! MAYBE THERE'S ANOTHER WAY OUT. I'LL SHOW YOU HOW TO FIND OUT...
Melvin Purvis had the main entrance to the cave blocked up tight so that not a breath of air could come through. He then lit a candle and walked slowly around the huge "cathedral hall" of the Kalomo Caverns. Halfway around—

LOOK! THERE'S A BREATH OF AIR COMING FROM BEHIND THIS PILLAR... AND THERE'S A CREVICE BACK THERE! WE'VE GOT TO WORK FAST... SAM AND SALLY, SPRINT BACK TO THE CAR AND GET MY PARACHUTE FLARE GUN! TAKE OFF YOUR SHOES EVERYBODY! WE'VE GOT TO FOLLOW THIS TRAIL SILENTLY.

Melvin Purvis, heading in the direction of the faint breath of air shown by his candle, slips through the crevice in the wall of the main cavern. He follows a narrow passage and suddenly comes upon another huge gallery never before discovered. He fires his parachute flare gun, and...
HANDS UP! NOW YOU FELLOWS CAN COME OUT THE MAIN ENTRANCE—WITH ME!
IT'S CARSON—THE GUIDE WE FIRED LAST WEEK! SO HE DISCOVERED THAT HIDDEN EXIT!

NOW THAT THOSE CROOKS ARE SAFELY IN JAIL WHERE THERE ARE NO EXITS... HOW ABOUT ANOTHER BOWL OF POST TOASTIES?
YOU BET, MR. PURVIS!
THEY'RE SURE! SWELL THESE HOT DAYS!

Why POST TOASTIES, the Better Corn Flakes, stay Crisp longer in Milk or Cream

NOTICE the tiny bubbles on the surface of every golden-brown flake of Post Toasties.
They are created by a special process that makes Post Toasties lighter... crispier... assures you that Post Toasties will keep their crunchy goodness longer in milk or cream. And every bubbly flake, toasted double-crisp, brings you the rich goodness of the tender hearts of the corn, where most of the flavor is stored.
Just try Post Toasties and you'll learn why folks everywhere call them the better corn flakes. And for an extra special treat, serve Post Toasties with ripe, luscious peaches and cream.
Get a package of Post Toasties at your grocer's right away—the price is low. A Post Cereal, made by General Foods.

COME ON, BOYS AND GIRLS! BE A SECRET OPERATOR!

IN MY NEW LAW-AND-ORDER PATROL! GET MY NEW SECRET OPERATOR'S SHIELD AND MY SECRET OPERATOR'S BOOK CONTAINING SPECIAL INSTRUCTIONS... CODES AND PASSWORDS. HOW TO DETECT VARIOUS CRIMES...
